Dear Bulldog Family,

Union College continues to grow and improve each year, but with your support, we can elevate our programs to a whole new level! Recently, we created the Union College Enhancement Project - a three-phase endeavor designed to enrich and enhance the baseball and softball programs. The phases are:

1. Indoor Practice Facility
2. Turning the Lights On
3. In-ground Dugouts

Our first phase - the creation of the Indoor Practice Facility - has already gotten off to a great start with $25,000 raised towards the $60,000 goal. We believe that this indoor facility is essential to the future successes of our programs. The facility will help us assist with the development of our players, provide additional recruiting support, and continue to keep our program at the national level.

So, I challenge you to step up to the plate and help us hit a home run! We are looking for 300 heavy hitters to give back to our programs to assist us in going to the next level!

Bart Adam

AND WITH YOUR SUPPORT WE CAN BRING IT TO THE NEXT LEVEL

PHASE 1
Indoor batting cages offer hitters a unique opportunity to perfect their swing without the distractions of a field, and pitchers will be able to hone their craft year-round without the worry of inclement weather. This facility can be used at any time of day, any day of the week. Be it a 100-degree day or a January blizzard, it can always be in use. With moveable nets the 400-square feet of turfed area can also be used as an additional practice area.

When we think of the future of our program, we think of recruiting. A potential student-athlete will often visit several other institutions before making that final decision. We feel that these new enhancements will boost our recruiting efforts significantly and give us the competitive edge over our competition.

PHASE 2
The addition of lights on the Colonel Harland Sanders Baseball Field and the Union Softball Field would remedy the limitations of daylight-only practices, games, and low-spectator attendance, while opening up the possibility of booking a non-sporting or off season events at either Jerry W. Carey Stadium or Union Softball Field leading to a variety of auxiliary revenues.

PHASE 3
The addition of in-ground dugouts will improve sightlines for our spectators and help protect players from foul balls and weather.

THANK YOU for your consideration of the Union College Enhancement Project. This is a small investment for a large gain which will be essential for the future successes of our program. Union College seeks to be an exciting and inviting campus with thriving academic, athletic and cultural programs while meeting the challenge of recruiting and retaining the best and brightest students. We believe these projects will have a measurable impact and will in fact elevate the quality of our organization as a whole and can propel us to a whole new level.

SAVE THE DATE
HOMECOMING OCTOBER 22-25, 2015
Come join us for an alumni game and dedication ceremony to the building.

Yes, I want to SUPPORT THE ENHANCEMENT PROJECT!
