IF YOU HAVE IT WE’LL STOKE IT.

If you have it we’ll stoke it. Fire in the belly, that is. At Union College, we want to help you set the world on fire.

SOME PEOPLE CALL IT PASSION. WE CALL IT FIRE.
ignite your intellect.

We specialize in small classes taught by professors who will fan your intellectual flames. Most classes have no more than 20 students, so you’ll really get to know your classmates—and your professors. Our liberal arts core means that no matter what your major, you will take classes in subjects like history, English, science, math, and culture, which will help you understand the world around you.

If you’re starting to sweat and need help, we’ve got you covered. Professors want you to understand and are happy to help. And, the Academic Resource Center and the Writing Center are dedicated to helping you succeed.

play with fire.

Our Bulldogs do, and we’re just getting warmed up. 23 teams. 15 sports. More than 100 conference championships and counting! The Union Bulldogs know how to turn up the heat on their competition.

You can either play for fun, challenge, or achievement. There’s a major sport to get together with friends for basketball, volleyball, soccer, football, tennis, swimming, or track.

be the spark.

Take risks. Touch lives. Spread the love. Service is big at Union and there are lots of ways to get involved. You can dig into our community garden, tutor local kids, or make tails wag at the local animal shelter. Or go farther afield with Alternative Spring Break or our international service trips.

If you’re serious about community engagement and social justice, the Common Partners program is for you. Students who participate in the program contribute their time and talents to serving the community, and your commitment could lead to a scholarship.

From small classes and scholarships to clubs, events, and service, there are countless ways to feed the flame.
