- Coretta Scott King
Union College Student Government Association (SGA)

Union College students have a vital role and a distinct responsibility in the governance of the College. Students, through Student Government, hold responsibility to be self-governing; seek representation from all sectors of the campus community; create fair representative government; project the best aspirations of the community; provide support to the administration for effective enrichment of college life; and to assure the welfare of the student community by identifying important community projects, needs, problems, and solutions. Governance shared with the students, faculty, staff, and administration is how Union College succeeds in its commitment to being student-centered.

The funding base for the SGA is the Activities Fee of $70 per semester per full-time undergraduate student. Student Government accepts clear responsibility to fairly represent the student body, to set goals and program for each college year, to budget and distribute its resources with consideration for needs of various constituencies, and to promptly expedite all commitments.

SGA is a special forum for the principles set forth by the College’s Mission, Core Values, and Strategic Vision statements: it is a forum for learning, for service, for enlarging personal competencies, for exploring and applying values, for practicing stewardship of resources, and for discovering and claiming personal transformation.

You can read the entire SGA Constitution in the Important Information section of this handbook.

Celebrate Successes

We celebrate our people and their successes. We show respect for each other and the things that make our individual roles and contributions unique.

Co-Curricular Transcript

Whether it’s in student government, community service, theatre or intercollegiate athletics, Union “tracks” much of your involvement in college clubs and organizations, especially those that involve campus-wide leadership. So, when you’re ready to graduate, don’t forget to ask the Student Development Staff to place a copy of your Co-Curricular Transcript (or record of involvement) in your Career Services placement file. Students are responsible for updating their activities in MyUnion.

STUDENT INVOLVEMENT

CAMPUS ACTIVITIES

Union College is a member of one national campus activity organization, the National Association of Campus Activities (NACA). NACA is an organization comprised of nearly 1,000 college unions and activities professionals worldwide. Both organizations are dedicated to enhancing campus life through programs, services and publications.

CAMPUS ACTIVITIES BOARD (CAB)

The Campus Activities Board (CAB) designs, sponsors, and produces a variety of activities on campus and supports and encourages individuals and organizations to create their own activities. Members help plan and organize major events, including homecoming, spring formal, springfest, lip-sync contests, student dinners, dances, bonfires, outdoor recreation, and other campus activities. Membership is open to you so stop by the Student Life Office for more information. Occasionally, the CAB sponsors off-campus events for students. Transportation is provided, however, students are responsible for admission, food, amusement, etc. Examples include: parks, late-night bowling, paintball, minor league baseball, movie night and shopping trips.

SCHEDULING EVENTS

A campus Calendar of Events is available on the college’s web site and is updated weekly. For a student to secure a campus facility for a special event, meeting etc., contact the Student Development Office, upper level campus center or call ext. 1231. Faculty & Staff should contact the Events Coordinator, ext. 1263 to make a reservation. Requests for use of college facilities must be submitted at least one week in advance of the proposed event. All changes or cancellations in scheduled events must be reported immediately.

STUDENT ORGANIZATIONS

You have the opportunity to participate in and develop leadership skills through many campus organizations. Some are departmental, some are limited to honor students in their fields, and most are open to all students. Each is required to have a faculty or staff sponsor and some include faculty and staff in their memberships. To maintain a student-led government, all current clubs and organizations must file a petition for official recognition through the Student Government at the beginning of both the fall and spring academic semesters. In future academic years, it will only be necessary for those interested in founding new organizations to petition for approval and recognition. Faculty approval may also be required. Every club or organization involved with planning an event or special activity on or off campus must seek the advice and consent of the Director of Campus Life. This is especially critical if the planned event involves fund-raising. Off-campus fund-raising requires special permission from the Director as well as from the Advancement Office. No club/organization, which includes athletic organizations, may open an account and keep funds off campus.

All signs, posters and flyers posted around campus must meet the following criteria:

* Must be hung on a campus bulletin board
* Must be removed within 24 hours of the event
* May not be hung more than three weeks prior to the date of event.

SPIRITUAL LIFE

Union College provides an active spiritual life program that provides for fellowship, prayer, Bible study and other discussion and study groups to strengthen faith and encourage spiritual growth. We encourage you to discover and seek a growing and life-affirming spiritual faith.

The Spiritual Life Program is the philosophical and financial commitment of the College to an educational environment in which faith is deliberately present. Through a variety of activities integrated into the college experience, members of the campus community are encouraged to live out values in relationship with themselves, other persons, and the world.

The College Minister is friend, pastor, preacher, and worship leader for the campus community and, as coordinator of religious activities, is involved in the issues that concern the College, foster community, and develop corporate responsibility. The College Minister is also available for discussion and counseling, and can provide more information about faith-based programs.

WORSHIP SERVICES

Worship services are held on campus once a week. These services are led by the campus minister and the students in the spiritual life program. Students are encouraged to attend Sunday worship in the Conway Boatman Chapel or at the local church of their choice throughout the school year.

SPIRITUAL LIFE CENTER

The Spiritual Life Center is the primary space for you to gather for meaningful conversations about the things that matter most, and it is also much more. Your are always welcome to come by to simply hang out and relax, rest, have a conversation, study, pray, have informal devotions and worship, share a meal, check e-mail, or work on the computer. The College Minister’s office is located there and you are always welcome to stop by and visit.

MISSION THROUGH SERVICE

During the course of most semesters, Spiritual Life and Common Partners programs work together to provide unforgettable experiences of serving those in need. Helping with the local food pantry or homeless shelter, doing flood cleanup for people in Central Kentucky and assisting with Habitat for Humanity are examples that exemplify mission through service at Union.

Each mid-semester and spring break, serving/learning trips are sponsored. Opportunities in past years have included mission work in Belize, Central America, Flood relief in Eastern North Carolina, hurricane assistance in New Orleans, Habitat trip to Bahamas, and work with a Wildlife Rehabilitation Center.

STUDY AND SPIRITUAL GROWTH OPPORTUNITIES

The Spiritual Life Program offers regular faith and study groups, as well as retreats and other trips that challenge you to grow in your faith and as a person. These include fall and spring retreats, regular discussion and study groups as well as adventures that give you the opportunity to join with other persons in living out your faith in experiencing what it is like to be a person who is home-less. You are also challenged to bring your own ideas for groups and activities that will enable students, faculty and staff to grow more in their faith.
Lecture Series

The Spiritual Life Program sponsors two lectures each academic year. The Wilson-Gross Fall Lecture seeks to bring distinguished speakers to the campus to discuss vital issues confronting the modern church and society. A recent example includes Dr. Dawn Adams, a paleontologist who lectured on the relationship between science and “not science.”

The Spring Staley Lectures seeks to bring to college and university campuses of America distinguished scholars who truly believe in the Gospel of Jesus Christ and who can clearly identify with students. Recent examples include Native American storyteller Dayton Edmonds, and potter Jon Mourglia.

Spiritual and Pastoral Counseling

As a United Methodist School, Union College affirms the whole person. The campus College Minister is available to assist you with your spiritual development, regardless of your particular denomination or faith. You may have specific concerns about beliefs, discipleship or prayer, or you may be exploring your spiritual life for the first time. The College Minister is available for individual or group counseling by appointment or on a drop-in basis. Referrals can also be made in crisis situations and for long-term personal counseling. Pre-marriage and marriage counseling is available. On occasion, small groups are formed for sharing and support on a variety of issues. The College Minister is available also to talk with those who may be called into ministry and mission work and who would like to explore those possibilities.

Intercollegiate Athletics

Union College offers a full intercollegiate athletic program in a wide variety of men's and women's sports. Union is a member of the National Association of Intercollegiate Athletics (NAIA), the North American Off Road Biking Association (NORBA), and the Appalachian Athletic and Mid-South Conferences.

The College promotes athletics for physical, emotional, and social development as a vital part of its program of extracurricular activities.

The College varsity programs for women include basketball, cheerleading, golf, cycling, soccer, softball, tennis, cross country, track & field, swimming and volleyball.

In intercollegiate men's competition, Union is represented by varsity teams in basketball, baseball, cheerleading, football, cycling, golf, tennis, cross country, track & field, swimming and soccer.

The Varsity Athletics Staff prepares the section of this handbook relating specifically to varsity athletes in the interest of keeping them well informed on NAIA and college regulations and on department expectations, regulations and resources.

Strength and Conditioning Program

The Athletic Department operates a 2,000-square-feet strength facility that provides the most modern equipment available. The College's facility features a variety of free-weights, power stations, benches, and a line of Nautilus and Universal machines.

The strength complex has scheduled hours that allow not only for student-athlete use, but also for the general population of Union College.

Intramural Athletics

Union College provides a program of intramural activities involving both team and individual sports. Union is a member of the National Intramural and Recreational Sports Association (NIRSA) and adheres to their principles and guidelines in governing its intramural program. The Intramural Program is managed by the Student Development Staff.

Students are heavily involved in managing, programming, and officiating the IM program and participate as members on the Intramural Council, an advisory and policy board that governs the IM program. The program caters to the needs of students, is a "sports-for-all" program, and provides a good balance in activities for men and women, including coeducational activities. Typical programs include basketball, volleyball, softball, tennis, billiards, ping-pong, swimming, and others.

Please note that participation in intramural programming is a privilege that may be suspended for violence/poor sportsmanship, fighting, abusive and/or obscene language, and failure to cooperate with officiating decisions. The requirements of the Student Conduct Code apply fully in the intramural context.

Wellness Activities

Soldiers and Sailors wellness center opened in March of 2009. This facility provides equipment for cardiovascular and weight training. Students are welcome to use the facility as long as they present a valid student ID card.

ENSURING ACADEMIC SUCCESS

IMPORTANT INFORMATION ON ACADEMIC PROGRESS

The College provides you with an assigned Advisor. This person is there to assist you in selecting courses and completing academic requirements in a timely manner. However, smooth and efficient progress to completion of degree is primarily your personal responsibility. You should document each semester on the "Liberal Education Core" worksheet provided by your advisor and also available in the Registrar’s Office. You should consult regularly with your advisor to ensure proper progress toward a degree.

In your junior year, the Registrar will do a curriculum plan with you. This will indicate the courses that you have already completed toward the degree major that is listed on file in the Registrar’s Office. Any problem you may discover should be presented to your academic advisor, department chair, or the Registrar or Academic Dean as soon as possible. You may request a change of advisor through the Office of Special Programs. You should make every effort to keep yourself informed on current academic policy and to correct all errors or misunderstandings quickly. Academic deadlines are very important. Consult the College Catalog carefully for additional information.

ACADEMIC RESOURCE CENTER

The Academic Resource Center (ARC) provides free services to all students in several academic support areas. Tutoring is available for a variety of subject areas in both upper- and lower-division classes. Students may work with a tutor to review for classes, refresh study skills, or prepare for professional examinations. Students may also work independently, using one of the many computer programs or study guides available. The ARC staff is available both day and evening hours.

FRESHMAN SEMINAR

If you’re a full-time freshman or transfer student with fewer than twelve hours, you will participate in a Freshman Seminar course. The goal of the Freshman Seminar course is to maximize your potential to achieve academic success and adjust responsibly to the individual and interpersonal challenges presented by collegiate life. To accomplish these goals, you will engage in a number of in-class and out-of-class activities and exercises that will prepare you to deal with topics and concerns essential to your success at Union College. Classes for this one-hour course will meet twice a week through October. This is a graded course. Any student who earns less than a grade of “C” must repeat the course.

SUPPLEMENTAL INSTRUCTION

Supplemental Instruction (SI) is a strategic approach to assist you in succeeding in classes. If you have excelled in a particularly challenging course, you may be selected by the instructor of that course to hold group study sessions at least three times a week outside class. SI leaders attend every class session, model good study strategies, and encourage collaborative learning among the participants. SI sessions are composed of students with varying abilities. No effort is made to segregate based on academic ability. This service is offered at no cost to students. Since it began in 1994 at UC, students who attend 10 or more hours of SI earned an average of a letter grade higher than those students who did not attend.

PEOPLE

We advocate civility in all communications. We promote integrity of character by actively listening to each other, openly sharing information that may prove helpful to the situation, doing what is right, and being honest. We accept personal responsibility for our actions. We hold each other and ourselves accountable.
CAREER SERVICES

The Career Planning and Placement Office has something for everyone at every step along the way to your career. For those just beginning and looking for a direction to take, the Career Resource Center has a variety of books, assessments, and literature related to major and career opportunities and choices. Career Planning and Placement provides career counseling services as a means of assisting students with exploring careers and making occupational choices, and assists students in evaluating their interests, abilities and values through career guidance computer programs and vocational interest testing.

If you are farther along in the process, the Career Resource Center has information that will help you in your search for a summer job or internship.

If you are ready to make your next move and find a job, the Career Resource Center is available for assistance. Job Search, Resume Writing, Cover Letters, Interview Skills, and many more workshops are offered.

Career Planning has other services available, some of which include a career resource library, graduate school preparation, annual job fair, various workshops, and alumni resources.

Whatever assistance you need, Career Planning and Placement is here to help.

ACCEPTABLE USE POLICY CODE FOR COMPUTING AND COMMUNICATIONS
The following describes the privileges and responsibilities of computer users at Union College. All members of the College community are expected to follow the Code. In addition to representing College regulations, the Code also addresses certain issues mandated by Federal and State laws.

I. Using Computer Resources
A. College computer resources are provided to faculty, staff, and students for the purposes of study, research, service, and other work-related activities. Because resources are limited, all computer users are responsible for making sure that at all times the highest priority is assigned to activities related to these purposes.

1. All computer users engaged in activities that are not directly connected to study, research, or College service should be willing to yield public area computers or computer terminals to others without waiting to be asked.

2. Computer accounts and passwords should be protected against unauthorized use. Students should never share their accounts or passwords with anyone. Under special circumstances, faculty and/or staff may share accounts with others working on the same project. Such exceptions will be determined by the system administrator.

3. Faculty and staff members should not share accounts with friends and relatives—unless they fulfill the conditions above.

II. Protecting Union College Computer Resources and Institutional Data
A. Because computer resources are limited and valuable to the life of the academic community, all computer users should assume the responsibility to keep the computing system running and its resources unaltered and protected from damage and illegal access. Computer resources are fragile and vulnerable and all computer users should see themselves as part of an ongoing effort to protect these resources.

1. Computer users should never intentionally destroy or alter accounts, files, software, hardware, to obtain extra resources, or to deprive others of computer resources.

2. All computer users who possess knowledge of “bugs” or other flaws in the system are encouraged to take responsibility and share that knowledge with supervisors of that system.

3. Computer users should never make copies of software for which permission to copy is not explicitly given. Software copyright restric
A. There are important College concerns that place some legitimate restrictions on the privacy of others’ programs, data, text files, and electronic mail. All computer users should respect others’ privacy and right to control access to what belongs to them.

III. Privacy of Computer Accounts
A. Programs and data stored in computer accounts are the account holder’s property. All computer users should respect others’ privacy and right to control access to what belongs to them.

B. Instructors may monitor class accounts for students in their courses.

C. Authorized technical personnel may access accounts for the purpose of maintaining computer or communications systems and networks.

D. If there is reasonable cause to suspect code violations, network supervisors may monitor accounts on their networks.

V. Sharing Information and Communicating with Computers
A. Computers are particularly valuable resources for the sharing and communicating of programs, data, and texts. Thus, it is a serious matter when computer users take inappropriate advantage of the ease of communication that computers provide.

B. The use of computers and their associated communication equipment to abuse, harass, or offend others is improper. All computer users should realize that abusive, offensive, and harassing messages communicated or shared through computer resources are no different than similar conduct carried out in person, by telephone, or by mail.

1. What is considered obscene, abusive, offensive, or harassing when communicated in person, by mail, or by phone is also considered to be obscene, abusive, offensive, or harassing, when communicated by computer resources.

2. For the sake of clarity, the following are examples of things that should not be done with computers:
   a. Place obscene materials on electronic bulletin boards.
   b. Share files in your accounts that are obscene or contain harassing or abusive messages.
   c. Send obscene material or messages to anyone.
   d. Send abusive messages to other computer users.
   e. Make racially or sexually harassing remarks on electronic bulletin boards or send them to specific users or groups.
   f. Start or extend chain letters.
   g. Assume that all material is inoffensive to person(s) receiving the message.

VI. Using Computer Networks
A. Through the Union College computer system, users can access computers and networks outside the College. When accessing outside computer resources, all Union College users should know that they are representatives of the College. Users accessing outside computer systems become guests in someone else’s individuals. No one should attempt to circumvent these restrictions.

VII. Policy Related to the Union College Website and Homepage Development
A. The Union College Website may be edited, altered, or updated by authorized personnel only. Additional pages, sections, or substantive changes added to the Union College Website must be reviewed by public relations and receive administrative approval prior to posting or uploading.

B. Any faculty, staff, or administration that posts an educationally or professionally related page must notify the system administrator prior to posting.

VIII. Enforcement
A. The College considers any breach of the Union College Code for Computing and Communications to be a serious matter. Violations may result in loss of access privileges and/or possible disciplinary action. A violation of these rules resulting in a loss of privileges is an independent action from disciplinary action pursuant to College policy. Other disciplinary sanctions will be issued through appropriate College channels such as through the Student Code of Conduct.

B. Appeal of sanctions will be handled according to established College Policy through appropriate College channels.

IX. Future Policy Development
A. Due to the ongoing developments in computer technology, the College reserves the right to develop and distribute interim policies pending official approval.
LIVING A HEALTHY LIFE

HEALTH CENTER

Union College provides limited health services for current students. The Center is staffed by Registered Nurses from the Knox County Health Department and is under the direction of the Student Development Office. The center is located between the Conway Boatman Chapel and Robson Arena. Call 546-1301 (outside phone) or 1301 (campus phone) to reach the Center. Voicemail is available outside of staffed hours. Health Center hours are on Monday, Tuesday and Thursday from 1:00-3:30. Appointments are welcomed, but not necessary.

HEALTH SERVICES

Services provided include: required physical exams for student teaching, allergy injections (doctor's order will be required), pregnancy test, urinalysis, blood pressure, hemoglobin, and seasonal flu shots. STD and HIV testing and treatment, immunizations, and family planning is also available or can be referred to the Health Department for these services. Nurses may also assess ill or injured students and make appropriate referrals to local doctors for treatment when necessary. A nominal fee is charged for services ($1-$5) and for dressing supplies. Any student who is ill and has no money, can apply the fee to their college bill or will be billed by the Health Department. No student should postpone needed health care due to shortage of funds.

OTHER ACCESS

Specific information on local physicians, pharmacies, dental services, etc. may be obtained from Health Center staff. Some community health services extend special rates to Union students and may require that appointments be made through the College’s health center.

The Knox County General Hospital is within two miles of the campus. Baptist Regional Medical Center is located on 25W in Corbin. Both have emergency room service 24 hours each day with a doctor on call. Treatment is normally on a cash or insurance basis only. However, the hospitals will not turn anyone away with an emergency for insufficient means of payment.

Please remember that it is much less costly to arrange for care from doctors and health agencies during regular working hours. Going to an emergency room is one of the more costly ways of obtaining service.

The College requires all full-time students to have basic health insurance coverage. Information on an affordable student health and accident insurance program for part-time students and their families is available from the Business Office. Before visiting a doctor's office, see the nurse at the health center and she will be glad to give you a referral. This may help save costs on your overall medical bill.

IMMUNIZATIONS & EMERGENCY CONTACT INFORMATION

All students, both commuting and residential, must provide the college with information of persons to contact in case of an emergency. This information is requested, and kept on file, in the Office of the Dean for Student Development. If your emergency contact information changes, please notify the office immediately. If you are a residential student or a commuting international student, you must provide documentation detailing your current immunization status. You must provide an up-to-date immunization certificate showing a record of two (2) MMR vaccines and a tetanus (past 10 years) to the Student Development Office prior to beginning classes. If you are an international student you will also need to bring proof of a recent (within 1 year) PPD (tuberculosis) test. Resident students and commuting international students who due to justifying circumstances are not able to produce this documentation prior to the start of classes will have until Friday, September 21, 2007 to comply with the college’s immunization policy.

SPECIAL CONDITION REQUIREMENTS

If you have a health problem requiring special care and/or have special circumstances that may in any way be a risk to others, you must provide information about the medical circumstances to the Dean for Student Development. Physical handicaps, AIDS, tuberculosis, hepatitis and special psychiatric history are examples of medical events that may involve special management considerations. Confidentiality will be strictly observed.

COUNSELING SERVICES

Counseling and psychological services are provided for Union College students and include personal consultation for emotional, interpersonal, family and social concerns, as well as emergency referrals to local area health resources when needed. In partnership with the Student Life Staff, a counseling consultant organizes training workshops and programs to stimulate personal development, and develops support groups for the benefit of the student community.

For private consultation or information regarding referrals, please contact Ms. Jodi Carroll upstairs in the Patridge Campus Center. The campus telephone extension is 606-524-7082. A strict policy of confidentiality with regard to all contacts is observed and maintained rigorously.

SOCIAL AND RESIDENTIAL SUPPORT SERVICES

The Student Development Staff is one of the more visible groups of individuals in a student’s daily walk. Each member of the staff is prepared to assist personally or to find a strong resource person within the college community to assist with questions, problems, or conflicts that may arise.

Student Development Staff members, Residence Hall Assistants, activities and intramural staff members, and campus health services staff members provide a wide range of support services and programs on important lifestyle topics throughout the school year.

Student Development Offices are located on the lower and upper levels of the Patridge Campus Center where students can easily and conveniently drop in during the course of daily activities. Student Development Staff offices may be easily reached by phone via extension numbers 1604, 1231, 1601 and 1232.

CAMPUS DINING SERVICES

All resident students receive a meal plan to use in the dining hall. The meals plans are for the student that purchased the meal plan and cannot be shared with other students. The meal plan options are 19 meals per week or 12 meals per week. All first year students are required to purchase the 19 meals per week plan. The barcode located on the student ID serves as a meal pass. The ID card should be treated just as a credit card that affects the student account. The ID card is required for entry into the cafeteria and MUST be presented at the door before being allowed to enter for meals. For protection, report lost or stolen cards to the Office of the Dean for Student Development so they can be deactivated. There is a nominal charge for replacement of an ID/meal pass. Model citizenship is expected in the dining hall so as to prevent temporary suspension of boarding privileges.

The dining services are dine-in services. To go boxes are available for special circumstances and will require a five dollars deposit. The decision was made to move to a recyclable to go box. Student will pay an initial five dollar deposit to receive the box. Students will use the box and then return it the next day to receive a clean box.

The college’s dining services offer students the opportunity to purchase “flex dollars.” Flex dollars can be used at the Conversations Coffee Shop or to purchase a
meal in the cafeteria. Please see a member of the dining services staff for information on how to purchase this option.

Suggestions, questions, concerns related to food service should be brought to the Director of Dining Services. Regular meetings are held where students can offer opinions and suggestions about dining services.

A student who requires a special diet should arrange to meet with the Dean for Student Development and/or the Director of Dining Services. A physician’s statement may be requested.

Pioneer Inc. also offers a wide variety of special catered food options for on and off-campus campus activities and special events. Menus can be customized to fit budget and needs. Please see the Director of Dining Services for a copy of the special “Student Catering Guide,” for low priced catering options. Items in this catering guide can be purchased with flex dollars as well.

CONFLICT RESOLUTION

PROCEDURE

The College has a well-defined process in place for both academic and non-academic judicial services. Specific outlines for each of these areas may be found in the Community Expectations section of this publication. Students who believe they have been treated unfairly, discriminated against or have had their rights abridged in areas of the College may initiate a grievance. The College officials designated to consider all student grievances, are as follows:

- Dr. Thomas McFarland
  VP for Academic Affairs
- Mrs. Debbie D’Anna
  Dean for Student Development

The above mentioned individuals will serve as the Conflict Resolution Officers for the College. These individuals shall seek to resolve informally as many grievances as possible. If the grievance is not in their area he/she would direct the student to the correct person. These individuals have been designated as the grievance officers to make sure each and every student has an avenue in which to have his/her voice heard. Each student is encouraged to seek out the person he/she feels most comfortable with to discuss issues. That person will then direct the student to the proper conflict resolution officer.

PROCEDURES

To resolve a conflict, the following procedures shall be observed:

1. The student should first discuss the matter with the person involved and attempt to resolve the grievance through informal discussion.
2. If there is no resolution, the student should discuss the matter with the person’s supervisor or the individual to whom such person reports, who should attempt to mediate a resolution.
3. If the student still has not been able to obtain a resolution, the student may request the Student Grievance Officer to assist in the informal resolution of the grievance.
4. If the matter has not been satisfactorily resolved through the informal process, the student shall submit a written statement of the grievance to the Conflict Resolution Officer within seven (7) working days after the informal process has ended. The statement shall contain:
   (a) a brief narrative of the condition giving rise to the grievance, which includes dates, time, and location when the grievance took place;
   (b) a designation of the parties involved; and
   (c) a statement of the remedy requested.
5. The Conflict Resolution Officer will notify the appropriate Vice President, Dean, or other administrator that a formal grievance is pending in their area of responsibility.

CONFLICT RESOLUTION DECISION

Once a student has submitted a written statement, the formal grievance process is initiated. The Conflict Resolution Officer will gather any pertinent material deemed necessary for review. The Conflict Resolution Officer will also meet individually with all parties directly related to the grievance for fact and information gathering in order to make a fair and equitable decision. The Conflict Resolution Officer may choose to appoint a committee to hear the case depending on the issues at hand. The Officer will render a decision in writing within seven (7) days after all grievance information has been gathered. A copy of the decision rendered will be sent to the President of the College and the Vice President, or Dean, in the appropriate administrative area. The Officer shall follow-up with the appropriate area and/or persons to ensure that the decision has been implemented.

APPEAL

Any party directly involved in a grievance may appeal within fourteen (14) days from the date of the final decision of the Conflict Resolution Officer to the President of the College.

DAY TO DAY LIVING

CAMPUS CENTER

All operations within the Campus Center fall under the direction of the Student Development Staff except for the Giftshop and the Minton Cafeteria (operated by Pioneer, Inc.) See the inside back cover for Campus Center hours of operation. Appropriate dress is required in all campus buildings.

SWITCHBOARD/INFORMATION DESK

The College switchboard is located on the lower level of Speed Hall and operates during normal business hours. The main switchboard telephone number is (606) 546-4151. Incoming calls to this number can be transferred to any on-campus extension. The campus switchboard may be reached from any campus extension by dialing “0.” When dialed, callers are greeted by an automated prompt that allows callers to be transferred to a particular extension or office, search for an individual by name, or be transferred to an operator. Whenever possible, please utilize the automated service and campus directories rather than consuming the services of the operator.

The College telephone system has Direct Inward Dialing (DID). DID permits off-campus callers to reach most on-campus extensions at any time. This can be done by dialing (606) 546 plus the 4-digit extension number.

There are safety phones located outside of the Campus Center as well as all three residential halls. These phones are for calls to residents and safety only.

GAME ROOM

The Recreation Room is located on the upper level of the Campus Center and contains billiards, table tennis, video games and a variety of board games, etc. The Recreation Room is open for use by all students holding a current Union ID and for staff and faculty of the campus community.

Students with a current Union ID may check out game equipment from the activities office. Children, family members and/or guests of UC students, faculty and staff do not have direct access to the recreation room and/or game equipment and therefore must be accompanied by their UC relative or host. The ID holder assumes full responsibility for the equipment and understands that any damage to the equipment will be charged directly to them. Use of equipment is a privilege limited exclusively to the Union person who checked out the equipment. The ID card will be returned only to the person named on the face of the ID.

Gambling is strictly prohibited and may result in suspension. The Recreation Room is
a designated tobacco-free area. Cooperation is essential for continuing Recreation Room privileges. The Recreation Room closes 15 minutes prior to the closing of the Campus Center.

Soft drinks and snack machines are located in the stairwell lounge. Anyone involved in vandalizing a machine on campus is subject to a minimum fine of $100. Restitution for damages and other sanctions may also apply. Refunds for all machines are made through the Business Office.

LOST AND FOUND
Lost and found items may be turned in/reported to Campus Safety on the lower level of the campus center or to the Office for Student Development. Items left unclaimed for more than 30 days will be destroyed or donated to a local non-profit organization.

RESERVING A COLLEGE FACILITY
If you are planning a special event or meeting and would like to ensure that a specific campus facility is available, you must reserve the space through the Events Coordinator, ext. 1263. Groups or individuals reserving space must adhere to all college and building regulations. Parties are held responsible for any damage to college property.

ID CARDS
ID Cards are required of all full-time and part-time students and are prepared by the Student Development Office during registration and must be updated and validated each semester during confirmation. A $5.00 fee will apply for part-time students. Several college services are tied to ID cards such as food and library services and admission to special events. Boarding students must present their ID/bar code at each meal. IDs are also required when checking out recreation equipment, cashing checks, for admission to Fine Arts Association events, and for new services the college adds. College administrative staff and Campus Safety staff members reserve the right to see a student’s ID; this applies in particular at such times when rules, violations or any event of special safety concern has taken place.

There is no special charge for the first ID card for full-time students. An ID card will be issued at the beginning of each academic year and will be updated in the Spring term, during registration confirmation, with a validation sticker that will be applied to the card for all returning full-time and part-time students. However, cards that are lost throughout the academic year are to be reported immediately to the Director of Residence Life in the Bacon Room of Robison Arena. A replacement card can be obtained from the Dean for Student Development Office: a $10.00 charge applies. Altering an ID card results in a $50.00 fine; other Student Conduct sanctions may also apply. The ID card and any associated privileges are non-transferable to other individuals.

FAX, ATM, COPYING
An ATM is located on the lower level of the campus center. You are cautioned to take care when entering a PIN number so that your access code/security is not compromised. Please make sure to remove your receipt when finished. Copy machine service is available in the Library.

The College has fax machines on campus to be used on a limited access basis and require credit or calling cards for long-distance service. If you have pressing needs to use a fax you should visit the Student Development Office for assistance. The fax number for the Student Development Office is (606) 546-1605.

BUSINESS OFFICE SERVICES
Students may cash checks in the Business Office from 8:30 a.m. - 3:30 p.m. There is a $50 limit per check. Checks from parents or personal checks are accepted. A returned-check fee of $25 is charged on each returned check. Check cashing privileges are canceled after two insufficient funds checks. The College will not accept third party checks. The student’s identification number (school ID #) must be on all checks and correspondence.

Student account print-outs may be obtained from the Business Office upon request. Any questions concerning charges, billing or refunds should be directed to the Director of Student Accounts.

Refunds for overpayment on student accounts may be received after a request has been posted and the account has been cleared for refunds. This procedure takes about five working days to process.

A bookstore charge may be created for students on the UC Virtual Bookstore, if the student reflects a credit balance or if books are to be covered by agencies such as Vocational Rehabilitation.

Workstudy checks are processed the 15th of each month. Students must come to the Business Office each month to pick up the checks.

FINANCIAL AID OFFICE
As you continue your academic pursuits, it is important that you execute careful college financial planning each year. You are encouraged to visit with the financial aid office in January of each year to obtain the necessary information for the next year’s planning. The financial aid office manages federal, state, and institutional resources and is constantly aware of changes in the college planning system. The staff’s 25+ years of combined experience will be of great benefit to you as you prepare yourself for graduation and the search for the perfect career fit.

CAMPUS POST OFFICE
Students receive mail through the Campus Post Office located on the lower level of the Patridge Campus Center. The hours of operation are from 8:00 a.m. to 4:30 p.m. Monday through Friday. Postal boxes are assigned to students at no charge. Students may purchase books of postage stamps in the mail room. Campus postal delivery may not be used to advertise private off-campus parties/events, or to distribute commercial advertising/promotions for area businesses. Advertising campus events by means of an all-boxes distribution is given a low posting priority: twenty-four (24) hours advance notice is required. For reasons of effectiveness and ecology, persons providing campus events are encouraged to put up handbills and find other means of advertising.

GIFTSHP
Union College operates a virtual (online) bookstore in cooperation with Akademos. Students can purchase required textbooks as well as clothing and trade books and supplies. The Union College Virtual Bookstore is open 24 hours each day. Students can pay using credit cards and/or financial aid store credit. Please contact the Business Office for additional information regarding financial aid store credit.

Students need to purchase books within the first two weeks of the fall and spring terms. Books will be shipped directly to the student’s home or to their campus post office box. Shipping time will vary based upon the method of shipment credit. Students are allowed to return books purchased on the Union College Virtual Bookstore for up to 30 days after purchase with no return shipping charges. A return-shipping label will be provided by eCampus as part of the return process.

CABLE TV
Each residence hall room and lounge is wired for basic cable TV service. A short connecting cable is necessary for connecting the TV set to the coaxial outlet in the wall box. There is no special additional charge for this service. Students wishing to have HBO and/or Cinemax may negotiate this by contacting Barbourville Cable TV.

SAFETY
CAMPUS SECURITY/SAFETY
Union college employs and trains its own campus safety officers. Campus Safety is on
duty everyday, 24-hours each day. Campus Safety may be reached by phone at any time by dialing 546-1390. Additionally, residence hall staff is able to contact Campus Safety through 2-way radios.

Union College has an active, continuing concern for safety in all aspects of campus life. Students, faculty, and staff are encouraged to submit their suggestions for reducing risk and to call administration when a safety problem is observed. Students are required to comply with important safety practices: burning incense, candles, and open flame in college buildings are prohibited; electrical cords must be used and placed safely—they may not be placed under rugs; fire and external residence hall doors must be kept closed at all times; possession of weapons, firearms, ammunition, and incendiary/flammable materials is prohibited; compliance with proper disposal of hazardous materials is required.

You are required to keep all keys issued to you in safe, secure manner. You may not transfer keys to another person. If you lose a key, you must report the loss immediately to a member of the residence life staff. The College also works steadily to improve lighting on campus and to improve access for those facing special physical challenges. Additionally, for your safety, the College cautions residents about leaving windows unsecured as they may pose a risk to personal safety.

The college reserves the right to contact local law enforcement officials in cases that may threaten the safety of any member of the college community. It is important that college officials constantly be aware of who is on campus especially in late hours. If asked, you or any persons accompanying you must provide identification to college officials. Failure to identify yourself could result in contact with local authorities.

For additional and more specific information about the Safety office please visit the web site. There you can find information such as crime statistics, campus map, meet the Safety Team and a lot more.

**CAMPUS PARKING**

You have the privilege of on-campus parking. Any motorized vehicle must be parked within specifically designated parking areas. A map of our parking areas is available at the Safety Office located in the campus center.

All vehicles must display a current parking permit decal on the left top corner of the windshield. Permit decals may be obtained from the Safety Office.

The license plate number of each vehicle you will be using on campus must be registered with Campus Safety. You, as well as other members of the campus community, may not park on campus unless the license numbers have been recorded with Campus Safety. A change in vehicle license numbers must be reported to Campus Safety immediately. The parking privilege is limited to those periods directly related to class attendance and campus activities; disabled vehicles are to be reported to the Office as well. You may park on campus only during the school session for which you are registered.

The College provides parking areas at the vehicle owner's risk and is not responsible for any damage that may occur while a vehicle is on campus. Furthermore, the owner of the vehicle may be equally responsible for violations committed by anyone borrowing his or her vehicle.

Parking privileges will be withdrawn for any vehicle used to transport illicit substances or stolen property on/off campus. Withdrawal of parking privileges and other penalties may apply to anyone driving recklessly or carelessly. Driving over curbs, lawns, or sidewalks is prohibited. Blocking fire hydrants, drives, entrances, refuse containers, loading docks, fire lanes, safety access areas, or other vehicles is prohibited.

Motorcycles, scooters, mopeds, or vehicles containing gasoline, oil or other flammable substances are not permitted in any college building.

The College provides designated parking for handicapped persons. To park in these spaces you will need to have a state-issued handicapped decal. A person who is temporarily disabled may apply for a campus handicapped decal by presenting a medical statement to the Safety Office.

Residential students are assigned parking in lots designated by building. These are the only lots residential students are allowed to park. Cars belonging to residential students that are found parked in lots marked for commuters, visitors or open lots will be ticketed.

- 18 -

The College may assess fines for parking code violations. Some fines need to be paid immediately, others would be placed on your student account. An example of amounts of these fines include but are not limited to the following:

- $20.00 fines include:
  - No Valid Parking Decal
  - No Parking space or area

- $50.00 fines include:
  - Parking in a Fire Lane
  - Parking in Ramsey Circle
  - Parking in Visitor Parking

- $50.00 fines include:
  - Reserved/Designated/Visitor Parking
  - Handicapped Space without I.D.
  - Blocking driveway or access
  - Speeding or Reckless Driving
  - Driving on Lawns/Sidewalks

$100.00

- Removal of Vehicle Immobilizer Boot

The interest rate on student accounts is 1.5% per month/18% per year.

Any student who receives a third citation during the academic year will be at risk of having the car towed at the owners expense. A fourth citation will result in the loss of parking privileges for 60 days.

Students who receive four (4) citations per academic year will have their parking privileges suspended for a period of 60 days by a member of the Safety Office. Persons found driving any motorized vehicle on campus while this suspension is in effect will have a Vehicle Immobilizer Boot placed on their vehicle and could have parking privileges permanently revoked.

To remove a boot, you will be required to sign a statement of charges for the $100.00 fee before the boot will be removed. This charge must be paid to the Business Office within three business days to avoid an increase to $125.00 and a hold code placed on your student account (non-release of transcript/non-registration). Persons attempting to remove the boot themselves, could be charged with damaging college property.

The college reserves the right to have any vehicle towed. This is an alternative the College would prefer to avoid, however, any vehicle that is found to be interfering with College activity, safety access, handicapped accessibility access, and of delivery or services is subject to immediate towing at the owner's expense.

C. CHEATING shall be defined as any act(s) of deceiving, swindling, or fraud to include but not limited to: copying of another student's work; use of unauthorized notes or materials in tests and examinations; use of stolen tests, examinations or other materials; and the purchase or acquisition of papers or intellectual properties to present as one's own work.

(Upon notification of a student appeal, the instructor will inform the department chairperson of the facts of the matter. Their opinions and advice should be solicited at this time.) If the problem is not resolved successfully within five (5) class days following the initial request, the student or instructor may appeal for further consideration to the Office of Academic Affairs by completing a letter of appeal and submitting it to the Vice President for Academic Affairs. All charges of academic dishonesty that are serious enough to affect the final grade(s) of a student are to be reported to the Vice President for Academic Affairs.

G. All appeal hearings shall be conducted in private and shall include only such parties directly affected by the outcome, parties designated by the College to be present or their designated representatives.
H. Within five (5) class days from the close of the hearing, the Ad Hoc Hearing Committee shall advise the student and the instructor of its decision and shall make its decision known in official form to the Vice President for Academic Affairs.
I. The decision of the committee shall be considered final and will represent the terminal act in the appeal procedure.

A. The Vice President for Academic Affairs shall administer the decision of the Ad Hoc Hearing Committee.
B. In cases involving academic dishonesty, a copy of the letter and decisions of the committee shall be kept in confidential files by the Vice President for Academic Affairs. When the student graduates, the file will be destroyed.

D. Any student found responsible of academic dishonesty in any form will be subject to forfeiture of his/her right to graduate with honors from Union College, as determined by the Ad Hoc Hearing Committee.

NON-ACADEMIC

JUDICIAL SERVICES

The Coordinator of Student Conduct serves as the College's chief Non-Academic Judicial Services coordinator. For information relating to academic disciplinary situations, see Academic Judicial Services. The Coordinator of Student Conduct is responsible for notifying applicable judicial bodies of cases that need to be adjudicated. The Coordinator of Student Conduct may serve as advisor to judicial bodies, may investigate and file complaints/charges, may counsel with students and assist them in preparation of their cases and appeals, may render decisions, and may take Administrative Action for violations of the Student Conduct Code. By virtue of the position, the Dean of Students may, as well, execute any and all judicial issues/actions.

All references in this handbook to judicial procedures, guidelines, and expectations apply to all aspects of College life at Union College.

The college reserves the right to notify any college personnel it deems having 'a need to know.' This may include coaches, professors, and/or academic or social advisors. The college also reserves the right to contact parents or guardians in disciplinary issues.

The college reserves the right to deny access to disciplinary records to any person or persons without written consent of the accused or responsible or without official summons. The college reserves the right to notify victims of the outcome of any case and in particular those involving violent or destructive behavior or sexual misconduct.

JUDICIAL SERVICES DECISION BODIES

The College seeks to conduct its business with a commitment to fairness. If involved in a disciplinary situation, you may go to the Coordinator of Student Conduct for judicial process information and assistance. The following is to be viewed as a limited list of alternatives rather than a lock-step progression.
ADMINISTRATIVE REVIEW
The Administrative Review may consist of the Hall Directors, or the Coordinator of Student Conduct. The Chairperson for this panel may be the Coordinator of Student Conduct or someone designated by him/her. The group is empowered to meet for case review, to gather additional evidence and necessary paperwork, to interview those involved, and to reach decisions as may befit a case. Decisions reached by this panel are submitted to the Coordinator of Student Conduct as recommendations. Judicial decisions will be issued in writing. Students have 3 class days/72 hours to respond to decision and contact the Coordinator of Student Conduct in writing to appeal a decision.

STUDENT CONDUCT BOARD
The Student Conduct Board is a peer judicial review board that hears cases that are assigned to it by the Coordinator of Student Conduct. The central goal of the Board is to create an environment in which students can hold each other accountable for their actions. The Board is composed of a maximum of seven upper-class students who have completed a training program in judicial procedures, ethics and student development theory. One of these students serves as the chairperson and facilitator of the Board. The Coordinator of Student Conduct serves as advisor to this board.

SPECIAL HEARINGS AND APPEALS BOARD
The Dean for Student Development appoints a panel of no less than three (3) and no more than five (5) full-time faculty and staff members to serve as a Special Hearings and Appeals Board. In special cases, a student may be asked to serve on the board. The Dean for Student Development or a person appointed by her may serve as the Panel Chairperson. The Panel will hear appropriate cases as brought by College officials or by student request as deemed appropriate through the Dean for Student Development. This level of judicial processes may be used to give first hearing to a case. It may be used to review and decide whether a request for appeal is substantial enough to merit an appeal hearing. It may be used to hear an appeal. It may serve as the highest/final level of the College’s judicial process system providing the case has been heard and decided at any other level.

STUDENT CONDUCT CODE
INTRODUCTION
The Student Conduct Code has as its central principle the responsible exercise of freedom. Students may play an important role in the formation of student conduct rules and in adjudication of rules violation cases. The concept of self-determination requires students to accept full responsibility for their choices and for the consequences of their actions. The Student Conduct Code is applicable to any incident involving students, whether on or off campus, which affects the sense of safety and full enjoyment of campus space and services of any another member of the campus community.

Union College may continue to pursue and adjudicate misconduct even if a student is prosecuted in a civil court. Students who make choices that result in violations of the following Conduct Code statements, or any policy as stated in this handbook and/or the college’s academic catalog, are subject to review for disciplinary action. (College property is defined as all property owned, leased to, contracted for or operated exclusively by Union College as mandated under the control and regulation of the Board of Trustees of Union College.) Note: Articles of the Student Conduct code also apply to Union College groups and/or organizations.

A. PROCEDURE CODE ARTICLES
A-1 A high standard of personal responsibility is a core value of the college and is required of Union students. Providing false, misleading, or incomplete information during a judicial investigation, hearing, or appeal is dishonest and is prohibited.

A-2 Students are expected to respond to hearing summons. The College reserves the right to proceed to make a disciplinary determination should the accused fail to respond to charges/summons and to make required declaration of responsibility by the scheduled date.

A-3 Judicial requirements, except for separation sanctions, are secondary to academic program requirements. Judicial requirements take precedence over athletic or co-curricular requirements.

A-4 In some circumstances, especially regarding violations of state and local laws, the college reserves the right to notify local, state or federal authorities in addition to adjudicating the situation through the college’s disciplinary process. Individuals, for example victims of code violations, interested in pursuing beyond the College’s process should refer to local, state and federal laws.

A-5 Students are required to complete the judicial sanctions as determined. Failure to complete the sanction requirements may result in the review of the case for appropriate action.
3. INTEGRITY/ACADEMIC CODE ARTICLES

B-1 The central purpose for the existence of a college is the pursuit of knowledge and truth; the College environment must be free of dishonesty, deceit, and misrepresentation in its academic life. Any student who chooses to be dishonest in his/her academic work commits a crucial act of contempt toward the College’s purpose. A student who chooses to be dishonest in his/her academic life seriously interferes with fairness in academic competition. All incidents of academic dishonesty are to be reported to the Vice President for Academic Affairs. B-4 Falsifying, altering, or forging any official College records or documents, employing official College documents or records for purposes of misrepresentation, or causing any official College documents or records to be falsified by means of any misrepresentation is considered a serious offense. Hazing is defined as any behavior in which a person is required to participate in an activity in order to join an organization, group or team, and/or in which the activity does not have a direct and reasonable relationship to the goals and purpose of the organization, group, or team.

B-11 Harassment of any member of the community is a direct violation of the spirit of civility and equality that the College seeks to create. Harassment is defined as repeated, uninvited behavior, in any way, including via forms of communication, which threatens a person’s well-being or interferes with the person’s ability to enjoy the benefits of being a member of the community. This includes harassment through social media and text messaging.

B-12 Gambling in any form is strictly forbidden. Raffles are prohibited. Gambling is defined as gaining or attempting to gain the property of another person by risking one’s own property in a game of chance and/or skill.

SEARCH AND SEIZURE

The College recognizes that a room or vehicle search is an intrusive act. However, the College reserves the right to conduct a search on campus at any time; the College reserves the right to also search vehicles. The College seeks not to be arbitrary in performing a search. A search may be conducted to dispel suspicion.

College staff members, in the course of carrying out their duties, are authorized to respond to any illicit item which may be in plain view anywhere on campus including student rooms and vehicles. The concepts of plain view and assumption of intent apply to those items visible in the course of performing normal staff duties—items that are clearly visible without moving things within that space.

General Guidelines

Searches are typically conducted by two staff members. Only the occupants of the room may be present during the search. The door to the room or apartment is closed during the search. Any search will be reported to the Coordinator of Student Conduct or the Dean for Student Development within two hours by voice message and within 24 hours in writing. It is generally preferred that the resident(s) of the room be present during the search. If the residents of the room are not present at the time of the search, they are to receive written notice that a search was conducted and what items were confiscated. While this notice is usually provided at the time of the search, it must be provided within 24 hours of the search.

Plain View Search

A plain view search is a search of a student room, apartment, or vehicle that may be conducted by any single Student Development Staff member. Anything that can be seen in the student’s space without moving anything may be confiscated.

Search to Dispel Suspicion

If a Student Development Staff member suspects the presence of an illicit item or of prohibited activity or if such items or activities have been observed during a plain view search, then that staff member may conduct a search to dispel suspicion. Furniture and property may be moved in order to conduct this type of search.

Thorough Search

A thorough search is a complete and total search of a student’s room, apartment or vehicle. Every part of the room and all of the student’s property is closely examined. A search of this type is conducted by two staff members and must be approved by the Coordinator of Student Conduct or the Dean for Student Development prior to conducting it.

A. COMPLAIN ACCUSATION:

The Coordinator of Student Conduct, as the chief judicial services coordinator, may be the person of first reference for receiving a complaint/accusation from students, faculty, administrators, staff members. The Coordinator of Student Conduct may conduct a preliminary investigation to determine probability and specific nature of a Conduct Code violation and to determine the presence of sufficient evidence to warrant further action. Written notice is then prepared and served on the accused as to the charges and the judicial proceedings. The Coordinator of Student Conduct may initiate a complaint/accusation.

3. ADMINISTRATIVE DISPOSITION:
1. If the Coordinator of Student Conduct makes a finding that there is no violation or that there is insufficient evidence to proceed with the case, the Coordinator of Student Conduct, then he/she or his/her designee documents, reports, and files the finding.
2. If the Coordinator of Student Conduct makes a finding that there is potential probability of intent and sufficient evidence of a Student Conduct Code violation, the judicial process will begin.
3. A required or suggested counseling program may be initiated by the Coordinator of Student Conduct if it is judged to be appropriate and useful.

C. JUDICIAL LEVELS:

There are three (3) different judicial bodies available to review and/or hear cases. These are not in order. The Coordinator of Student Conduct determines which body is to hear a case. (Additional detail on these judicial bodies is provided elsewhere in this section.) These bodies are: ADMINISTRATIVE HEARING; STUDENT CONDUCT BOARD; SPECIAL HEARINGS AND APPEALS BOARD

D. ENTITLEMENTS OF THE ACCUSED:

1. To be provided with a fair and timely hearing.
2. To be presented with full knowledge of the charges and the evidence.
3. To be free from fear of unreasonable search and seizure.
4. To be provided with adequate time to prepare a defense. Pending action on charges or during an appeal, the status of a student may not be altered, meaning that his/her right to be present on campus and to attend classes will not be suspended except for reasons relating to his/her physical or emotional safety and well-being, for reasons relating to the safety and well-being of other students, staff, or College property, or if campus official strongly feels as though it is in the best interest of the student(s).
5. To be able to present evidence and statements from supporting witness(es) from the College community.
6. To have one (1) representative from the College community to serve as advisor in preparation for and during a hearing. The accused must speak for himself/herself; advisors shall not be vocal during hearings. Only current active full-time members of the Union College community are permitted to participate in the judicial process. This special advisor may be student or faculty/staff/administrative member. Any student seeking an advisor should contact the Coordinator of Student Conduct. Attorney or outside counsel is not permitted.
7. To receive a copy of the disposition of the case.
8. To be provided the privilege to request an appeal as provided by Code.
9. To have the privilege to waive any of these entitlements.

E. OPTIONS OF THE ACCUSED:

1. Student may choose to accept responsibility to the charge(s) and request, in writing, the Coordinator of Student Conduct consider Administrative Action. If the Coordinator of Student Conduct grants Administrative Action, he/she will provide careful consultation and review of the case will come to a determination of applicable sanctions. Case is closed. If circumstances merit, the Coordinator of Student Conduct may deny Administrative Action and refer the case to one of the judicial bodies.
2. If student does not accept responsibility, the Coordinator of Student Conduct may choose to hear the case himself/herself or refer the case to a judicial panel. If fault is found, the student will be given the appropriate sanctions.
3. A student may choose not to respond to charge(s) and the required interviews; the student thus forfeits fair process options, including appeal, as outlined in the Community Expectations section of this book. Sanction(s) will be determined and the student will be notified of the results in writing by the committee’s chairperson, the Coordinator of Student Conduct, or his/her designee.
4. The Chairperson explains the nature and purpose of the hearing to all persons present. Hearings are closed to the public and to media-related individuals/groups. All persons sitting to hear a case must commit to keeping all content of the hearing in absolute confidence. Hearings are to be viewed as information sessions for all persons. The spirit of a hearing is to be in the nature of an inquiry to determine facts; a hearing is not to be considered an adversarial proceeding. The Chairperson is to indicate whether the case to be heard is an original hearing of a case or if it is an appellate hearing.
5. The accused is brought in and asked if she/he is knowledgeable about his/her entitlements in the judicial code. If the student seems to be uninformed, the Chairperson may choose to review entitlements with the accused. The accused is asked if he/she has received a copy of the charges. A ‘Yes’ answer allows the hearing to continue. A ‘No’ answer requires that the Chairperson present the student with a copy of the charges.
6. The Chairperson explains the goal of the review is to come to a determination as to whether it is more likely than not that a Student Conduct Code violation occurred and to administer appropriate sanctions.

F. ORDER FOR HEARINGS:

Preliminary Procedures
1. The Chairperson calls the hearing to order.
2. Chairperson introduces all persons present at the hearing. Only the following persons may be present: members of the Judicial Body; Judicial Services Coordinator(s); the accused; the person filing the complaint/accusation; college advisor for the Accused, if engaged; witnesses or persons who have been asked to offer statements for/against the accused. The Chairperson will decide if the Complainant and the Accused are to be present at the same time or on the same day.
3. The Chairperson states the following requirements of confidentiality and the conditions for member disqualification from any hearing: if any member is currently under serious disciplinary status; if any member is involved in the case(s) to be heard as the accused party or as a witness; if any member is in a position where he/she for any reason may not be able to observe absolute confidentiality about the proceedings; if any member has knowledge, involvement, or predisposition in the case that would prevent him/her from giving the case a full and fair hearing. If any member of the Board can be disqualified from the case, then that person must leave the hearing at this point and have no further involvement in the case.
4. The Chairperson explains the nature and purpose of the hearing to all persons present. Hearings are closed to the public and to media-related individuals/groups. All persons sitting to hear a case must commit to keeping all content of the hearing in absolute confidence. Hearings are to be viewed as information sessions for all persons. The spirit of a hearing is to be in the nature of an inquiry to determine facts; a hearing is not to be considered an adversarial proceeding. The Chairperson is to indicate whether the case to be heard is an original hearing of a case or if it is an appellate hearing.
5. The accused is brought in and asked if she/he is knowledgeable about his/her entitlements in the judicial code. If the student seems to be uninformed, the Chairperson may choose to review entitlements with the accused. The accused is asked if he/she has received a copy of the charges. A ‘Yes’ answer allows the hearing to continue. A ‘No’ answer requires that the Chairperson present the student with a copy of the charges.
6. The Chairperson explains the goal of the review is to come to a determination as to whether it is more likely than not that a Student Conduct Code violation occurred and to administer appropriate sanctions.
Hearing Procedure
1. The Chairperson presents the charges against the Accused. The Chairperson may distribute copies of the charges and case history; these copies must be collected at the close of the hearing and filed/securely or disposed of.
2. The Chairperson requires that the accused state a plea. The student may plead “Responsible” or “Not Responsible” for the charges. If the student pleads “Responsible,” then the Board may ask questions of the Accused for clarification and move to the Sanction Procedure part of the hearing. If the student pleads “Not Responsible,” the Board will proceed with the rest of the hearing.
3. The Complainant presents information related to the case while providing documents, supporting evidence, and witnesses as judged appropriate.
4. Board members ask questions of the Complainant and his/her witnesses; particular attention is to be given to discrepancies.
5. The Accused presents a response to the charges while providing documents, supporting evidence and witnesses as judged appropriate.
6. Board members ask questions of the Accused and his/her witnesses; particular attention is to be given to discrepancies. At no time may an advisor to a student address anyone except that student.
7. The Chairperson shall decide whether to call in witnesses for further questioning and shall decide whether to permit any dialogue between witnesses or principals by a panel member. Either side may submit questions to the Chairperson to be asked of the opposing side. It is the Chairperson’s discretion to ask these.
8. The Accused is asked to make a final statement.
9. The Complainant is asked to make a final statement.
10. In the course of the hearing, the Board may determine that the accused student should be charged with additional violations that were not included in the original charges. If the Board decides to bring additional charges, the student must receive an amended hearing referral that includes the new charges and be provided with at least three days to prepare to respond to these new charges. The student may choose to waive the requirement for an amended referral and the three-day preparation period, and respond to the charges immediately.

Sanction Procedure
1. If the student either pleads or is held “Responsible” for the charges, then the Board will begin deliberation about appropriate sanctions. The student’s previous disciplinary record may be considered in determining the sanction.
2. The decision will normally be announced by the Chairperson to the accused in the presence of the panel. However, it is noted that the decision may have to be given to the student at a separate time by the Chairperson. Chairperson may request that the decision be delivered by the Chief Judicial Services Coordinator or someone designated by the Coordinator. Every effort should be made for the decision to be delivered in person and that a copy of the decision be given to the student at the time the decision is rendered or as quickly after the hearing as possible. It is prudent for the Chairperson to have at least one other member of the panel present at the time the decision is given to the student. It is acknowledged that this may not be possible during summers and/or off-school intervals. All matters sent by mail are to be sent certified with return receipt.
3. The Coordinator of Student Conduct is to be advised of the decision at the earliest possible moment, particularly in cases where the decision may produce special management challenges. In cases that are clearly hostile and threatening to property or persons, the Coordinator of Student Conduct is to be informed before the accused is given the decision. It may be prudent for the Coordinator of Student Conduct to be present when the decision is given to the student.
4. Copies of the decision are to be given to the principals in the case and to the Coordinator of Student Conduct. Chairperson’s record and report of the hearing is to be filed with the Coordinator of Student Conduct.
5. The Coordinator of Student Conduct must review all sanctions that will involve the suspension or expulsion of the student from the College. The Coordinator of Student Conduct and the professional members the Student Development staff will take appropriate steps to carry out the sanction in a timely and effective manner.

G. APPEAL PROCESS
The responsible party/accused is to be informed of his/her entitlements to request an appeal unless the case is in final hearing by a panel. Any appeal must be filed with the Dean for Student Development within 72 hours/three class days or within one week if the student is not on campus at the time the decision is issued.
An appeal is not automatically granted. Any appeal request must be written and signed; reasons for requesting the appeal are to be stated in the student’s written appeal request. Facts supporting grounds for appeal are central to the granting of an appeal. The Dean for Student Development or the appropriate judicial panel may consider granting an appeal for reasons such as procedural errors, evidence not available at the time of the hearing, misinterpretation of College policies and regulations by the hearing official(s), a sanction or sanctions disproportionate to the offense. An appeal will not be granted simply because a student is unhappy with the sanction.
If the Dean for Student Development decides to grant an appeal hearing, the implementation and/or enforcement of the sanction will be suspended until the completion of the appeals process.
SANCTIONS

INTRODUCTION

The College lives with the hope and expectation that students will generally make good decisions; however, sanctions, when they must be used, exist for several reasons:

- To assure that College expectations are clear.
- To assure that a sense of safety is preserved/restored for all including any victims.
- To assure that a student makes good on the consequences of a bad choice.
- To assure that all persons involved have had opportunity to learn from the experience and to have a clear measure of the potential for a second chance.

GENERAL SANCTIONS

Persons seated for judicial review may choose from the following list of sanctions and select one or a combination of sanctions in deciding a case. The Union College judicial process is to be deliberately fair, to assure equitable treatment of each student, and to give thoughtful regard to precedent/consistency. Care must be taken to assure that the student has a potential appeal route and that fair play principles are reasonably applied.

Students facing judicial action may contact the Coordinator of Student Conduct with questions, concerns, information, or need for assistance when preparing for judicial hearing or an appeal of decision.

NOTE: Any Sanction prefaced by an asterisk (*) can only be used by the Dean for Student Development, or another of the College’s vice presidents in his/her stead or absence, or by the Special Hearings and Appeals Board.

1. WARNING: A warning is the first disciplinary contact between a student and a Student Development Staff member. The warning statement must clearly advise the student about the nature of the inappropriate behavior/rule violation. This verbal statement must clearly indicate to the student that a WARNING has been given. The Student Development Staff member must file a copy of this action with a Head Resident if the student is residential.

2. WRITTEN REPRIMAND: A written reprimand is the second level of disciplinary contact. The disciplinary incident must be documented and filed with the Coordinator of Student Conduct; it is a formal and official recognition of misconduct.

3. LOSS OF PRIVILEGES AND/OR FINANCIAL AID: Being part of Union College is viewed as being a participant in a group of privileges, services, and agreements. There are contractual obligations on all parties. Privilege to participate in or benefit from many nonacademic co-curricular/extracurricular activities, events, or services may be withdrawn. (A student may be reassigned to another room within a residential hall, if circumstances warrant this option.) A pattern of disciplinary problems may result in a reduction or cancellation of institutional financial aid. A written statement of this restriction is placed on file with the Coordinator of Student Conduct as well as with other staff members with a need to know. The College reserves the right to deny participation/privilege to hold office or leadership positions on teams, clubs, or organizations as a result of conduct code violations.

4. RESTITUTION REQUIREMENT: Student will be required to make financial restitution for damage caused to public, private, or College property. This sanction in no way replaces or affects any civil action authorities that may be involved in. Restitution for damages is separate from determination of a monetary fine. Restitution may be distributed proportionately among a group of offenders. A fixed number of hours of community restitution work may be assigned and must be completed under the supervision of a staff person. No compensation may be solicited or accepted during this assignment. Duties are not to involve degrading activity.

5. MONETARY FINE: Monetary fines may be imposed as a result of judicial processes and range from $10 to $300. Restitution for damages that may be involved is separate from determination of a monetary fine.

6. SOCIAL SUSPENSION: Student is placed under a set of written conditions/restrictions for a stated period of time. Complex cases may require conditions of probation and can result in the extension of probationary period, further disciplinary action, and/or dismissal. Any subsequent judicial involvement for new offenses will take into account a student’s probationary status. This may include but not limited to athletic team practices, meetings or games, club meetings or events, theatre practices and productions, etc.

7. GOOD CONDUCT BOND: A student may be required to post a cash Good Conduct Bond. The amount is determined by the judicial body reviewing the case and may not exceed the amount of $200. The bond must be for a fixed period of time and should not run past the close of the Spring Semester unless special conditions are noted. The bond is to be released if the student leaves school without further incident. The student is to receive a receipt for the bond; the bond is to be sealed and placed in the custody of the administrative assistant for the Dean of Students. The bond automatically becomes a fine if terms of posting bond are not met. Failure to meet terms of disciplinary action results in forfeiture of bond and further disciplinary action including possible dismissal. The minimum bond judgment is $50.

8. DIRECTED EDUCATIONAL SANCTIONS: Directed Educational Sanctions allow for creative design in determining judicial requirements. Examples include: directed conversation with designated staff person; referral to or requirement to attend alcohol/drug/gambling use/abuse classes, meetings or awareness experiences; letters of explanation, admission, apology; preparing campus information, bulletin boards on designated topics; organization of programs to present to other students; research papers; conference with health/safety officials or other campus resource persons; conducting surveys on designated related topic; behavioral contract; psychological evaluation. Where disrespectful behavior toward faculty or staff is involved, a special conference between parties may be ordered.

9. RESIDENCE HALL PROBATION: This is an official warning that further violation could constitute grounds for loss of the privilege to reside in College residence facilities. Appropriate staff members will be notified. Specific conditions may be requested of the student and must be met.

10. TERMINATION OF HOUSING AGREEMENT: Hearing panel may recommend that a student have his/her Housing Agreement terminated. Approval of such a recommendation automatically denies the student privilege to be in or around residence halls for the remainder of the academic year. As a matter of policy, the College reserves the right not to issue/offer a housing agreement to a student based on a disciplinary outcome or the student’s overall judicial history.

SEPARATION SANCTIONS

The following special group of sanctions may be imposed as a result of the College’s judicial process and can only be imposed by the Dean for Student Development. A “Stop Code” designation will be placed on the student’s permanent academic record/file during such time as these sanctions apply and may be removed at the close of the sanction period. All of the following restrict the student from the campus during...
the period of sanction on penalty of further disciplinary action including civil trespass action. The College reserves the right to make a disciplinary determination should the accused fail to respond to charges/ summons and to make required declaration of responsibility by the required date and the student is responsible for all monetary expenses accrued.

1. "WITHDRAWAL: A student may request the option of withdrawing from school. If approved, a designation of "withdrawn" is entered in his/her discipline file. A "Stop Code" note is placed in the student file in the Registrar’s Office to prevent the student from readmission/ registration at Union and to require that the student interview with the Dean for Student Development before being permitted to re-enroll. The length of the withdrawal period is a minimum of two semesters and may range to permanent withdrawal or expulsion depending on the offense involved. The College reserves the right to attach special conditions to the re-entry decision as determined by a judicial panel and/or the Dean for Student Development. If readmitted, a student returns to school on Conduct Probation. The request for "Withdrawal" option is to be submitted in writing to the Dean for Student Development and must be received in advance of a judicial body's being seated to hear the case and within five class days after the delivery of summons. The college reserves the right to note "withdrawal under judicial review" on the student's academic transcript. This option does not supercede the "Expulsion" Sanction.

2. SUSPENSION: Student is required to leave the institution for a specific period of time. Suspension is associated with serious acts of misconduct and/or may be used as a cooling-off period in certain incidents. The student is not allowed to be on campus, attend classes, live in the residence halls, eat in the dining hall, participate in athletic practices or games, participate in extra curricular/non academic events, or be involved in College-sponsored events off-campus. A student may return to the campus under Conduct Probation. A student who represents a threat to persons or property may be put on immediate suspension; judicial hearings are to be scheduled as soon as possible. The suspension will be delivered in person and by letter from the Coordinator of Student Conduct or Dean for Student Development. For extended suspensions the college reserves the right to note "suspension through judicial action" on the student's academic transcript.

3. "DISMISSAL: A student is asked to leave Union College. The student may apply for readmission only after a minimum of one full semester of absence. Readmission to school is conditional on the approval of the Dean for Student Development or a judicial review panel. Sanctions may be attached at time of re-entry. If readmitted, a student resumes student status under Conduct Probation. Student typically may visit the campus during dismissal period only with the written consent of the Dean for Student Development. Other restrictions may apply. The college reserves the right to note "dismissal through judicial action" on the student's academic transcript.

4. "EXPULSION: Expulsion is the permanent severing of relationship between the College and a student. Expulsion is the permanent loss of privilege to be part of the College community and to be on college property. Expulsion status can be altered only by the President of the College. Student may not apply for review until (5) years after expulsion action. A permanent "Stop Code" note is attached to the student's academic and electronic files. The college reserves the right to note "expulsion through judicial action" on the student's academic transcript.

MONETARY FINE SANCTIONS

Following are examples of common Student Conduct Code violations and the minimum fines that may apply. Severity of violation and previous disciplinary history determine final amounts. Monetary fines can range from $10 up to $300. Residential judicial process is coordinated by the Coordinator of Student Conduct. The Coordinator may choose to decide a case and to assign sanctions. In most cases a student may appeal a decision. An appeal must be received in writing by the Dean for Student Development within 72 hours/3 class days after decision is delivered.

POLICY ON MANAGEMENT OF STUDENT DISCIPLINARY RECORDS

To minimize the risk of improper disclosure, disciplinary records are kept in the Office of the Dean for Student Development separate from the student academic records in the Registrar’s Office. Transcripts of academic records contain only information about a student's academic performance and status. Counseling files are also kept in a discreet and separate location. Information from disciplinary or counseling files is highly restricted and is not available to unauthorized persons on campus, or to any person off campus without the express written consent of the student involved except under legal compulsion or in cases where the safety of persons or property is involved. Disciplinary files resulting from academic due process cases are kept in confidential files by the Vice President for Academic Affairs. Academic Division discipline files are destroyed when a student graduates. No records are kept which reflect the political activities or beliefs of students. It is a professional expectation of all administrative staff and faculty members that they respect confidentiality about students that they acquire in the course of their work. Any concern about confidentiality should be brought to the attention of the Dean for Student Development at the earliest possible convenient moment. Disciplinary file information relating to disciplinary history involving actions under the ‘A’ and ‘B’ Code Articles of the Student Conduct Code will generally be purged within two (2) years after the date of that student’s graduation. Union College reserves the right to hold disciplinary files up to five years.
(5) years after graduation, or separation, if a student's file shows excessive disciplinary history or serious code violations. The college reserves the right to hold a student's disciplinary file up to ten (10) years after graduation if he/she has been administered action under one or more of the following Code Articles of the Student Conduct Code: C-2, C-5, C-6, C-8, C-10, D-2. Special written application may be made to the Dean for Student Development for review and possible earlier purging of disciplinary history. A student receiving action under Sanction 4, “Expulsion,” remains on file permanently; a note indicating this disciplinary determination is placed in the student’s file at the Registrar’s Office as an official “Stop Code” to prevent the student from ever enrolling again at Union.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT
The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age (“eligible students”) certain rights with respect to the student’s education records. They are:

1. The right to inspect and review the student’s education records within 45 days of the day the Registrar receives a request for access. Parents or eligible students should submit to the Registrar a written request that identifies the record(s) they wish to inspect. The Registrar will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student’s education records that the parent or eligible student believes are inaccurate or misleading. Parents or eligible students may ask the college to amend a record that they believe is inaccurate or misleading. They should write the college Registrar, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the college decides not to amend the record as requested by the parent or eligible student, the college will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorized disclosure without consent. (Also noted in the academic catalog) One exception that permits disclosure without consent is disclosure to school officials with legitimate education interests. A school official is a person employed by the college as an administrator, supervisor, instructor, or support staff person (including health or medical staff and law enforcement personnel); a person serving on the school board; a person or company with whom the college has contracted to perform a specific task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his/her tasks. A school official has a legitimate educational interest if the official needs to review an educational record in order to fulfill his/her professional responsibility.

4. The college will release directory information to the general public in response to a legitimate request unless the student concerned files a written request with the Registrar within three weeks of the beginning of the term that such information is to be withheld from the public. Directory information includes student name, address, dates of attendance, date of birth, degree(s) earned, and previous educational institutions attended.

5. Union College will, however, release records and accounts pertaining to veterans, as well as to other students, to appropriate U.S. Government representatives. The exception to all other federal laws is found in Title 38 of the U.S. Code, Section 1790 (c).

6. The college will contact parents after a second alcohol violation if the student is under 21 years of age or over 21 years of age and a dependent.

7. Although the Family Educational Rights and Privacy Act (FERPA) does not prohibit the college from releasing personally identifiable information to the parents of dependent students (as defined by the Internal Revenue Code), it is the policy of the college to require all students to sign a waiver for the release of such information.

8. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with the requirements of FERPA. The name and address of the office that administers FERPA are:

Family Policy Compliance Office
U.S. Department of Education
600 Independence Avenue, SW
Washington, DC 20202-4605

RESIDENCE LIFE AT UNION
The College offers a wide variety of residential living options. Unless approved otherwise, all undergraduate students must live on campus. Pfeiffer, Stevenson and Lakeside Halls are considered traditional residence halls and house first-year and upper-class students. The college pays particular attention to the needs and interests of residents of these buildings through innovative programming, ongoing communication, and student input and involvement. If you are interested in becoming a part of residence life leadership, contact the Director of Residence Life for more information. We're always looking for great leaders!

The Stewart Apartment building only houses approved upper-class students who have successfully met minimum grade point average and credit hour requirements. (Normally, a waiting list exists for this building so it is important to apply early in the second semester of your sophomore year!) Stewart Apartments are designed to offer state of the art living space, full Internet access, a spectacular view, and an opportunity for students to gain a sense of independent style living and learning at a cost less than traditional space affords. Living in this particular space is a privilege and is only afforded to those students who can consistently demonstrate a high level of personal responsibility and social integrity. Although substance use and abuse of any kind is not tolerated at Union College, it is fair to note that in situations where the Student Code of Conduct addresses alcohol and illegal substances, students in Stewart are particularly vulnerable to losing this housing privilege even after a first offense. All residential buildings are non-smoking facilities. Senior Courts is an option for those students who have lived on campus for three consecutive years or have significant leadership involvement around campus, plus no substantial disciplinary history.

COMMUNITY LIVING (WITHIN YOUR ROOM OR APARTMENT) INSURANCE
The College is not responsible for the loss or theft of personal property. You should consider purchasing renter’s insurance or discussing with your family how your parent’s homeowner’s policy addresses or covers the personal items you bring to campus.
MAINTENANCE REQUESTS

Contact a member of the Residence Hall Staff with any maintenance requests so that a work order may be completed and submitted to the Physical Plant Department. Your request must be as specific as possible. If the request is not completed within one week (24 hours for emergencies), contact your Hall Director. Physical Plant will accept work orders that are submitted directly by Residence Assistants and Hall Directors.

APPLIANCES & FURNITURE

The following appliances are permitted in your room: fan, radio, stereo, television, hair dryer, coffee maker, popcorn popper, dorm-sized refrigerator (max. 2 cu. ft.), and microwave oven (under 600 watts). Any appliances you bring must be recorded on your Check-In Report. Appliances not on the preceding list (such as hot plates, ovens, deep fryers) may be removed from your room and held by Hall staff until arrangements can be made for the item to be returned home. Usually there are two rooms on each electrical circuit. Residents must work together to prevent overloading and inconveniencing their neighbors.

Stewart Apartments are fully furnished. Additionally pieces of furniture may not be taken into Stewart. Patio furniture is allowed on decks. BBQ grills must be approved by Residence Hall Staff before placing on decks or balconies.

Cordless phones may not exceed 900 megahertz. 2.5 gigahertz cordless phones are prohibited because they interfere with the computer network and the radio system used by Safety and Physical Plant.

ROOM DECORATIONS/SOUVENIRS

We encourage people to personalize their living space to feel at home. S-hook and fishing line is approved for hanging as well as double-sided scotch tape; anything else may result in a fine. No Scotch tape, masking tape, double-faced tape, hooks, nails, tacks, putty, or anything that will leave a permanent mark may be used. No use of contact paper is permitted. The College views graphic posters that promote the use of alcohol, tobacco, or pornographic/erotic/violent material as being in bad taste. Display of such materials in a manner that they are visible from outside a building is strictly prohibited.

WINDOWS

Union College does not place a curfew on resident students. Visiting through residence hall windows can be disturbing to other residents. Students are not permitted to sit on ledges or window sills; students may not throw objects out of windows or at a building; students may not use windows as a means of entry to gain someone’s attention. Talking to anyone from your window is not permitted from dark until noon each day.

Campus Safety is instructed to move anyone along who is hanging around residence hall windows - particularly if this form of visitation is taking place after dark. Campus Safety is authorized to demand a person’s I.D. Card. The Campus Safety staff may confiscate an I.D. card, if necessary, and forward it to the Coordinator of Student Conduct.

RESIDENTIAL BUILDING KEYS

Each residential student is issued a key to his or her room. Students are responsible for their own keys and may not transfer their keys to another person. The cost for key replacement could range from $50.00 to $350.00. The Student’s I.D. card will grant them access to the Residence Hall in which they live. If a student loses his/her ID card, that student is responsible for the cost of the replacement of that card.

RESIDENTIAL BUILDING OUTSIDE DOORS

The main entrance door of the residence halls are locked 24 hours per day, 7 days per week. Students are strictly prohibited from propping open the outside doors or tampering with door hardware. The exterior doors are equipped with security access database that is computer monitored.

HOLIDAY DECORATIONS IN THE RESIDENCE HALLS/APARTMENTS

1. No live trees, wreaths or garlands may be kept in a student’s room. A live Christmas tree may be placed in the residence hall lounge area as long as it is watered every day and kept away from all heat sources.
2. No real candles or open flames may be used for decoration. Candles that employ an electric light bulb are acceptable.
3. No decorations may be placed on or across the ceiling. Students may hang lights along the walls of the room.
4. No student may do any rewiring in the process of putting up decorations. Extension cords for lights must be a three-prong grounded cord.
5. No decorations may interfere with the opening and closing of the door or window.

COMMUNICATION HARASSMENT

Any willful, intentional, and/or persistent act that annoys, degrades, or embarrasses another individual may be considered harassment and is prohibited. Any intentional and/or persistent telephone calls or computer communications (i.e. email, chat programs, etc.) designed to or having the effect of annoying another member of the College community will result in disciplinary action and may result in criminal and/or civil action. Students are responsible for calls placed from the telephone equipment in their assigned rooms and/or apartments.

NOISE
Since students live in a setting in which everyone is in close proximity with one another, residents of all buildings must be aware of the amount of noise they make. Excessive noise is considered a serious offense. Student Development Staff has been instructed to handle noise concerns with the following policy guidelines. Students who receive a noise contact during the Quiet Hour period (see next section) will receive a written notice from a member of the Student Development Staff. It is the responsibility of each resident, in addition to staff, to encourage each other to be considerate of the people around them when it comes to noise. The following are the action that may be taken by staff:

1st/2nd Contact: Written Warning
3rd Contact: $10 fine
4th Contact: Residential Probation; $25 fine
5th Contact: Placed under review/recommendation to the Coordinator for Student Conduct for termination of housing agreement/suspension.

NOISE
Noise contacts do not carry over to the next semester but do remain part of a student’s discipline history.

QUIET HOURS
In order for residential building space to best meet the needs of all students, all residents must show strong consideration for their neighbor’s personal needs for quiet to study and rest. Quiet Hours apply to all areas of the residential building. Any noise or behavior, such as loud televisions, stereos, conversations etc., which infringes on the rights of other students are considered inappropriate.

Quiet Hours are from 10 p.m. until 9 a.m. on Sunday thru Thursday and 11 p.m. until 9 a.m. Friday and Saturday. A 24-hour quiet hour period will be in force during Mid-term and Final Exam periods. The Quiet Hour policy is set by the Residence Hall Staff with advice and consent of the Director of Residence Life. It is a vital courtesy to respect other students’ rights to peace and quiet at all hours of the day. The college may at times designate a section of a residential building as having a 24-hour quiet policy in response to student needs and wishes.

MUSIC
The main issue about you and your music should be consideration for your neighbor. Resolution of any invasion of privacy or conflict over music/noise will be based on the principal of consideration. A student may not play a musical instrument (amplified or un-amplified) in a residential building without permission from the Director of Residence Life. Students may play their instruments in the Fine Arts Building on campus. Students with stereos must play them in a way so as not to invade other students’ privacy - headphones may be the avenue to pursue. Students who continuously infringe on other student’s rights with music may be required to remove their musical equipment from the building.

CO-ED VISITATION
The Union College co-ed Visitation Policy represents collaboration initiated by the Student Government Association (SGA) and approved by the College Administration. This personal responsibility agreement assumes that all parties have the maturity and integrity to respect the promises, privileges, high ideals, hopes and expectations therein stated. Questions and consequences resulting from this policy will be resolved in the context of the Student Conduct Code which is based on the principles of fairness, consideration, opportunity to pursue academic goals, stewardship of resources, and security and safety of persons and property. In general, the behavioral norms expected of a Union College student are those of common decency and decorum; recognition of and non-infringement upon the rights and property of others and of the college; honesty in academic work and all other activities; and observance of local, state and federal laws. Currently, a visitation policy applies to residents of the following halls: Pfeiffer, Lakeside, and Stevenson. Student Government, in an effort to encourage students in Stewart Apartments and College Courts to collaboratively develop their own parameters for co-ed visitation, has chosen not to recommend strict rules. Apartment residents who develop such parameters are encouraged to provide a copy of the agreement to the Residence Life staff to assist with potential conflict mediation.

Any visitation privilege, contract or agreement affirms the vital importance of opportunity for students to have privacy in their personal space to study as well as to pursue and form relationships and friendships. This policy seeks to extend the opportunity for students to socialize, study, and enrich their personal histories at Union. Student conduct is not considered in isolation from the college community, but as an integral part of the education process. Students are expected to honor the trust and intent of this privilege.

As a church-related college, Union recognizes the Social Principles of the United Methodist Church. Within these principles are guidelines for human relationships. Specifically, “the Church affirms that men and women have equal worth in the eyes of God... and rejects that one gender may receive love, power and esteem only at the expense of another... Sexuality is recognized as God’s good gift to each person. Each person is called to the disciplined, responsible fulfillment of themselves, others and society in the stewardship of this gift. United Methodist doctrine holds that sexual relations are only clearly affirmed in the marriage bond... (furthermore)... sexual relations where one or both partners are exploitative, abusive, or promiscuous are beyond the parameters of acceptable behavior and are ultimately destructive to individuals, families, and the social order.”

CO-ED VISITATION PERSONAL RESPONSIBILITY CONTRACT
Residents in traditional residence halls (Pfeiffer, Lakeside Hall, Stevenson) may have opposite-gender guests in the main lower-level lounges from noon–midnight and guests in their rooms from noon – midnight, Monday–Thursday, noon–2:00am on Friday and Saturday.
Common sense and consideration must
COMMUNITY EXPECTATIONS

apply at all times regarding roommate's needs for security, privacy, quiet, safety of personal belongings, and equal opportunity to entertain in the room. Residents must call and check in their visitor between 12:00 noon and 2am. You must use the sign-in sheet provided in the lobby of each building. Your visitor should be signed in as he/she arrives AND when your visitor leaves. If you have visitors that are not recorded on the hall's sign-in sheet, you will be documented for a visitation violation. If members of the hall accumulate three visitation violations within a semester, visitation privileges will be removed. Each semester will begin with a clean slate.

All participants must be at least 18 years of age. Exceptions require written consent from the Director of Residence Life. Hosts are held accountable for the behavior of guests. Guests must enter and leave through designated main entrances. Guests must use designated guest rooms only.

Student Conduct Code requirements and sanctions apply as stated in the Student Handbook. Breach of promises made here results in sanctions including loss of privileges, fines, review for termination of housing agreement or separation from college services.

OVERNIGHT GUESTS
For reasons of campus safety, ANY AND ALL OVERNIGHT GUESTS MUST BE REGISTERED WITH AND APPROVED BY the Director of Residence Life, before the guest may stay in any residential building. Residents in traditional residence halls (Pfeiffer, Stevenson, Lakeside Hall) may have overnight guests of the same gender only in their rooms. There is no charge for having an overnight guest. Overnight guest forms may be picked up from the Director of Residence Life in the upper level of the campus center. The College has to know at all times who is staying in the residential buildings. Failure to register a guest will result in a $50 fine per guest per night. There is a limit of two guests per room per night. No one may stay more than two nights, in either traditional residence halls or apartments, without specific approval of the Director of Residence Life. Special permission is required from the Director of Residence Life to have a guest under the age of 18. For underaged visitors, parental consent letter is required and guest must have health insurance coverage information and written authorization for host or other local person to make medical decisions if needed.

Use of the guest privilege must always take into account the rights of your roommate(s) and must show careful consideration for the property, privacy, and convenience of your roommate(s). A host is responsible for the behavior of a guest at all times, and must inform the guest of college policies. Should a problem occur, the guest privileges of the guest could be terminated immediately.

Infractions of regulations by guests may be charged to the discipline record of the resident being visited.

Residents or guests may not sleep in the lounges. Guests should be well-hosted. If a bed is not available, the Hall Director or Director of Residence Life should be consulted for options. A guest room may be available if residents do not have space in their room for a visitor. Check with the residence life staff to make arrangements for this service. A three day notification is required to insure that guest space is available. Coed visitation privileges do not extend to guest rooms.

ROOMMATE RIGHTS
Students in private rooms have full responsibility for those rooms as designated in the Union College Housing Contract. Roommates share equal responsibility for the room they occupy and for the safety and security of each other's personal property. Apartment-mates share equal responsibility and right for the apartment they occupy and for the safety and security of each other's personal property. Roommates and apartment-mates could be equally responsible for College rule violations; all residents may be up for disciplinary review in the event that there is a violation. This rule is intended to protect a roommate's right to fair judicial process in regard to any violation within the resident's room. Any student who has knowledge of rules violations in his/her room or apartment and fails to notify residence life staff, shares equal responsibility for violations. A student is granted 48 hours/two class days to report the violation and clear himself/herself of rules violations for which he/she is not responsible. The rights and needs of the roommate and apartment-mates must always be kept in mind. A roommate or apartment-mate may not be displaced by a visitor or a guest.

Use of the guest privilege must always take into account the rights of a resident's room or apartment-mates and must show careful consideration for the property, privacy, and convenience of others.

The resident is expressly responsible for the behavior of a guest; infractions of regulations by guests may be charged to the discipline record of the resident being visited. Violations may lead to immediate termination of special visitor's privilege and of resident's general guest privilege for an extended period of time.

LIVING UNITS CLOSING
Students are not allowed to live in the traditional residence halls during Thanksgiving Break, Christmas Break, Spring Break, or August Break (for summer students). Students must make other living arrangements for these times during the academic school year. The only students that are allowed to stay in the traditional residence halls are those students that have official reasons that are directly connected to the College. These persons include students that have to stay for athletic games and practices, students that are doing student teaching, students that are involved in staff training, and students whose homes are in foreign countries.

Permission for official reasons must be sought and obtained from the Director of Residence Life. These students may be assigned to a different room for a break to consolidate the residents and close entire buildings.

All conditions stated in the Residence Life Agreement and in the Student Handbook apply to students that stay during breaks. If you reside in College Courts and Stewart Apartments and want to stay over a break, you must notify the Director of Residence Life, in writing, at least one week prior to the break.

There is no room or lounge visitation during all vacation periods. All outside doors must be locked at all times. Students are responsible for their own meals. The use of residence hall kitchens is permitted. Campus Safety is informed about the students that are involved in staff training, and students that are doing student teaching, students for athletic games and practices, students that are involved in staff training, and students whose homes are in foreign countries.

Those present on campus after 6:00pm on the date of closing, and who have neglected to obtain permission, or provide notification for apartment residents, will be fined, requested to vacate immediately, and may be subject to judicial action.

EXTENDED STAY REQUESTS
Students who request extended stay in College housing must apply to the Director of Residence Life by submitting a request form. Letters of verification from student's workplace and/or College department on letterhead are also required. All conditions stated in the Residence Life Agreement and in the Student Handbook apply to students that stay during extended stay. Extensions in campus housing are in no way guaranteed. If approval of extended use in campus housing is granted, the student will be assessed a charge of $25.00 per night. All extended stay requests must be submitted to the Director of Residence Life one week prior to the requested date. Failure to submit the request one week prior could result in an additional charge or denial of request.
COMMUNITY EXPECTATIONS

SUMMER HOUSING
The campus officially closes from the day of commencement through the official opening of school the following fall. Due to maintenance work, renovations to buildings, and a busy Summer Conference schedule, summer housing is not guaranteed. Students who need summer housing must apply for a space during housing renewal in the spring semester. The college only considers approval for summer housing for students who are enrolled as full-time academic summer students and who do not have a judicial history with Union or any previous institution. Consideration may also be given to students who are providing services to the community and/or college through a program such as the Bonner Scholars Program or for students who are involved in an off-or-on-campus academic internship.

REQUIREMENTS FOR LIVING OFF CAMPUS
The College requires all unmarried (those with no dependent children) full-time undergraduates to live on campus. Commuting students are exempt from this policy if living with parent(s) or legal guardian(s) who are over the age of 21 and reside in Knox, Clay, Bell, Whiteley, Laurel, or Harlan counties. Students in this category may be asked to provide proof of residency.
To live off-campus at any point in a student’s academic career at Union, she/he must apply for off-campus housing status.
To apply, a student must meet the following criteria/follow guidelines:
1. Have attended four (4) semesters of college and have a minimum of a 2.8 cumulative grade point average on a 4.0 scale.
2. Current returning students must complete and return the off-campus housing application and required documentation to the Coordinator of Residence Life by the first day of classes at the beginning of each semester. (Off-campus housing forms are available in theCoordinator for Residence Life’s office.)
3. If you do not apply to live off campus you will be housed and charged to live in a campus facility.
4. Must provide an itemized living budget of expected expenses and income.
5. Must provide a letter of support from parent(s) approving the concept of living off-campus.

FAILURE TO ADHERE TO THESE GUIDELINES COULD RESULT IN LOSS OF INSTITUTIONAL AID.

Important Notes:
• Moving off campus will likely affect financial aid in some way. Students are encouraged to check with the Financial Aid Office prior to making plans to move.
• Students who do not apply or who do not receive approval to live off campus, will be charged and will be expected to pay the full amount of room, and in some cases board, appropriate to their housing privilege (traditional or apartment).
• Institutionally funded financial aid, grants, and scholarships of any kind are available only to those who adhere to the college’s housing policy.
• Any student approved to live off campus is automatically removed from the reservation list for a residence hall room or apartment.
• Once approved for off-campus living, it may not be necessary to reapply each semester or year.

SPECIAL GUESTS REGULATIONS REGARDING DANCES & OTHER CAMPUS FUNCTIONS
All dances must be sponsored and paid for, if applicable, by a campus organization. The staff sponsor of that organization must be present throughout the event. Sponsoring organization(s) must officially schedule the event through the Coordinator for Student Life. Sponsors also must ensure good care of the facilities involved, as well as setting up and cleaning up after the dance is over. Staff sponsor(s)’ name(s) must be on file with Campus Center staff and Campus Safety at least 48 hours in advance of the event. Dances typically are restricted to the Patridge Campus Center. Dances close by midnight on nights proceeding a class day.

Union College community residents your personal values. The College recognizes that dance settings can easily change in character, placing people at risk and compromising civility. Immoral and/or obscene expression is not permissible in college-sanctioned activities. This expression includes (but is not limited to), profane, vulgar, or explicitly sexual language, placing hands on one’s own or someone else’s genital/private areas, undressing, and simulated sexual acts.

Minors (persons under age 18) are not permitted at regular college dances. The College reserves the right to restrict the number of guests to one, and reserves the right to issue and/or require guest passes. Union College students may be required to show their current College ID at the door. Guests must be prepared to present personal identification. You are for the behavior of his/her guest. Guests must be in good social and legal standing with the College. Acts of poor citizenship by guests may result in immediate suspension of your guest privilege.

Union College dances must be held on campus. The only exceptions are for major college events, and must be approved by the Dean for Student Development. Exception requests must be made at least one week in advance of an event.

MANAGING AND CLEANING YOUR ATHLETIC GEAR
Clean your athletic gear before entering the Residence Hall. The men’s side of Pfeiffer Hall has utility sinks available for use by the residents in that building. The bathroom sinks are not the place to clean gear, particularly cleats/spikes. Do not leave ice bags in the hallways, as they will damage the carpet. Please dispose of ice bags in the proper manner. Do not hang clothes out of windows to dry. Keep your gear inside your room.

COMMUNITY DAMAGE
Students are financially responsible for damage/vandalism to lounges, corridors, bathrooms, and other common areas under Union College’s “Community Damage” policy. The person(s) responsible for common areas damage cannot be determined, repair costs will be billed equally among all residents of the area where the damage occurred.

Union College as a Drug-Free Institution

Union College is committed to providing a safe and healthy environment for all its community members: students, faculty, and staff. In support of local, state, and federal laws, Union College has specific definitions of conduct in relation to the unlawful possession, use, distribution, or manufacture of alcohol or illicit drugs. The College's position is that violation of these policies results in unacceptable risk and disregard for the health, safety, and welfare of members of the College community. Violations may result in suspension, dismissal, or expulsion.

As a recipient of federal grants and contracts, Union College hereby declares to students, faculty, and staff that it is in compliance with the Drug-free Workplace Act of 1988 and the Drug-free Schools and Communities Act Amendment of 1989. Due notice is hereby given of standards of conduct which shall be applicable while one is on Union College property, while one is conducting business for the College, and/or while one is in attendance at any College-sponsored activity at any location.

Sanctions

Under Kentucky law, it is unlawful to:
1. operate a motor vehicle while one is under the influence of any substance which may impair one's driving ability (drugs or alcoholic beverages);
2. possess or consume alcoholic beverages if one is under the age of 21;
3. misrepresent one's age for the purpose of purchasing alcoholic beverages;
4. procure any alcoholic beverages for anyone under 21 years of age;
5. drink or be drunk in a public place.

Civil law stipulates penalties according to classification of the controlled substance, type of activity involved (possession, trafficking, manufacture, sale, possession with intent to sell), and frequency of conviction. Of these, under Kentucky state law, the most severe penalties apply for those involved with trafficking: first offense may be up to $10,000 in fines and up to 10 years in the penitentiary; penalties double for subsequent offenses. Possession can result in one year in jail and/or $1000 in fines under federal law. Federal penalties can range up to $8 million in fines, life sentence in prison, loss of property/possessions, and the death penalty.

Under state law, violations of alcohol laws range up to $2,000 in fines, 12 months in jail, and suspension of operator's license.

Under Union College disciplinary policies for students as outlined in the Student Handbook, penalties range from strict conduct probation, to termination of housing agreement, to financial penalty, to expulsion, depending on the severity of the offense. Termination of the housing contract may be part of the disciplinary action for a student living in College housing. Residents of Stewart Apartments should take special notice of language used under the heading Residence Life at Union.

Notice of Drug-Related Conviction

In compliance with the Federal Drug-free Workplace Act of 1988, any employee shall notify the immediate supervisor if the employee is convicted of a criminal drug offense occurring in the workplace or while one is on College business within five days of the conviction. The College shall take appropriate sanction and remedies in accordance with its policies. The provisions of this section are applicable to students who are employees of the College. This section of this policy is also applicable to students who receive a Pell Grant (federal grant).

Training and Counseling

Union College and the Student Government take a serious and deliberate view of the need for lifestyle education in regard to use/abuse of alcohol and controlled substances. Literature is readily available in the Campus Center and educational events are held throughout the year to help educate students. The Student Development Staff, in partnership with the Coordinator of Counseling Services, head up this effort. Students seeking counseling and/or assistance and information should contact the Student Development Offices/Residence Hall Staff members. Union College will arrange for psychological services when needed.

The College recognizes drug dependency as an illness and major health problem. The College also recognizes drug abuse as a potential health, safety, and security problem. Any student needing counseling or other professional support is urged to seek help through confidential campus or community health services as soon as possible.

Students may contact the Coordinator of Counseling Services at extension 1225.

Communicable Disease Management

Union College shall treat AIDS the same way as any other disease that may be contracted by students and staff. Victims of AIDS (Acquired Immune Deficiency Syndrome) or other diseases will be permitted to work and/or enroll in courses unless the student or staff member's personal physician or state or federal public health officials declare that the disease represents a substantial risk to the health and safety of other members of the community. In such instances, appropriate measures will be taken to protect the institution and the individual.

Legal and ethical considerations argue against the adoption of any policies or courses of action that would deny ordinary privileges and rights, including privacy, to students, faculty, or staff members who are known or suspected to be infected with the AIDS virus.

Students, faculty, and staff identified as HIV infected or having AIDS or any other communicable disease will not be barred from working, teaching, attending classes, or participating in College-sponsored activities unless the appropriate Vice President, in consultation with the individual's personal physician or state health department official, determines that he/she presents a clear and present danger to the public health. All such decisions will be made on a case-by-case basis, will remain open to re-examination in light of new information, and will consider facts such as the individual's state of health and occupation.

Union College is committed to providing...
students, faculty, and staff with a comprehensive educational program concerning AIDS based upon currently available medical information. The identity of the individual having AIDS will remain confidential. In the event that a personal physician or state health-department officials determine that an individual’s medical condition represents a public health hazard and warrants limitation of activities, only essential administrative personnel will be informed on a need-to-know basis.

Housekeeping staff and food-service workers will follow the guidelines issued by the Center for Disease Control for the prevention of transmission of AIDS and other communicable diseases.

AMERICANS WITH DISABILITIES ACT (ADA)
Federal laws prohibit discrimination under programs and activities receiving federal financial assistance. There are differences in the requirements for compliance between private and public institutions. Text from Section 504 of the Rehabilitation Act of 1973 reads in part: “No otherwise qualified individual with a disability in the United States shall, solely by reason of disability, be excluded from participation in, or be subjected to discrimination under any program or activity receiving federal financial assistance.

Private colleges and universities are covered under Title III of the Rehabilitation Act as public accommodations. Private colleges are required to make services available through alternate methods where it is “readily achievable.” For example, a private college is required to remove an architectural barrier where removal is “...easily accomplishable and able to be carried out without much difficulty or expense.” Union College seeks to evaluate each circumstance individually and to deal deliberately with service access problems. Union College examines barrier problems each year and works steadily to make campus services easily accessible or to locate needed services in spaces that are accessible. Students with disabilities are encouraged to visit campus and to discuss special needs with appropriate college staff. The Director of special programs is the college’s ADA officer. A prospective student may wish to contact the Office of Admission and the Dean for Student Development’s Office for information and to arrange a campus tour.

MINGER/CLERY ACTS
Union College’s policy in regards to the House Bill 321 (Minger Act) is:

1. If a student has a disability or injury, and would like assistance in leaving the residential facility during an emergency, they should contact the Director of Residence Life. The Director of Residence Life will then inform the campus and local authorities of individuals who are in need of assistance.

2. We provide an appeals process available to students, parents, or advocates for an independent and impartial review of an institutional policy of housing assignments that does not accommodate the student disability or endangers the student’s safety.

In accordance with the Clery Act, we provide an annual report disclosing campus security policies and crime statistics and make timely warnings to the community about crimes considered to be a threat to other students and employees. This report is managed and published by the Coordinator for Student Conduct and can be found on our internet site at http://mars.unionky.edu/safety/ or can be obtained through the Admission and Dean for Student Development offices.

ENVIRONMENTAL CONCERNS
We must be careful to respect others with whom we share our campus. Likewise, we must respect and be conscious of the earth’s environment. Recycling is a piece of the large puzzle to be put together in order to protect, heal, and save our environment.

As always, students are encouraged to vocalize their concerns about issues, which they deem important. The best place to start is with student organizations such as SGA, CAB and the Residence Student Association.

POLICY ON CONSENSUAL RELATIONSHIPS AND SEXUAL MISCONDUCT
Union College’s educational mission is promoted by professionalism in employee-student relationships. Professionalism is fostered by an atmosphere of mutual trust and respect. Union College is committed to maintaining an academic and professional environment in which all members of the college community can freely work together, both in and out of the classroom and in all other locations in which college business is conducted. Actions of college employees (faculty, administrators, staff, advisors, coaches, residential staff members, and graduate assistants) that harm this atmosphere undermine professionalism and hinder fulfillment of the college’s educational mission. Trust and respect are diminished when those in positions of authority abuse, or appear to abuse, their power. Those who abuse, or appear to abuse, their power in such a context violate their duty to the college community.

Behavioral, oral, and written actions that are intellectually, ethically, and socially inappropriate regarding gender, sexual preference, race, religion, disability, or ethnicity constitute serious affronts to human dignity and are interpreted as violations of the basic rights of members of the Union College community.

The following is intended to inform individuals of the college’s view on consensual relationships and sexual misconduct—which includes, but is not limited to, sexual harassment and sexual assault—and to provide procedures for responding to violations of this policy. It is hoped that no Union College student or employee will feel he/she is without recourse when experiencing an abusive event.

Consensual relationships that might be appropriate in other circumstances are deemed extremely unwise when they occur between a college employee and a person for whom that member has professional responsibility. College employees exercise power over students, whether in giving them praise or criticism, evaluating them, mentoring, making recommendations for their further study or their future employment, or conferring any other benefits on them. The choice to pursue amorous relationships between college employees and students is unethical when the employee has professional responsibility for the student. Such situations greatly increase the chances that the employee will abuse his or her power and sexually exploit the student. Voluntary consent by the student in such a relationship is suspect, given the fundamentally asymmetric nature of the relationship. Moreover, other students and employees may be affected by such unprofessional behavior because it places the employee in a position to favor or advance one student’s interest at the expense of others and implicitly makes obtaining benefits contingent on amorous or sexual favors. Therefore, Union College will view it as unethical if employees engage in amorous relations with students in classes, students subject to their supervision, or students receiving services, even when both parties appear to have consented to the relationship, obtaining benefits contingent on amorous or sexual favors.
SEXUAL HARASSMENT

Sexual harassment is defined as unwelcome sexual advances, requests, and other verbal or physical conduct of a sexual or sexual nature. This has specific application where submission to or rejection of such conduct has the purpose or effect of unreasonably interfering with an individual's performance, or of creating an intimidating, hostile, or offensive employment or educational environment.

Sexual harassment has occurred when an individual submits to such conduct as an implicit or explicit term or condition of his/her employment or education or when submission to or rejection of such conduct is used as a basis for employment or educational decisions affecting grades, academic progress, rate of pay, status, level, and/or working conditions.

Although sexual harassment is usually thought of as action from a male toward a female, these same conditions apply if roles are reversed, or if parties are of the same gender.

Union College embraces the definition of sexual harassment as defined by the American Association of Colleges’ Project on the Status on Education of Women as:

- verbal harassment or abuse
- subtle pressure for sexual activity
- sexist remarks about a person's clothing, body, or sexual activities
- unnecessary touching, patting, or pinching
- leering at or stare flirtatiously at a person's body
- constant brushing of another's body
- demanding sexual favors accompanied by implied or over threats
- physical/sexual assault

SEXUAL ASSAULT/RAPE

Sexual Assault is defined by the Kentucky Penal Code as sexual intercourse or sexual contact with another person by forcible compulsion or without consent. Absence of protest is not consent. Furthermore, valid consent cannot be obtained if the individual is coerced or substantially impaired, such as by alcohol or drug consumption. The same definition holds whether the assailant is a stranger or an acquaintance. The College policy is that a person has the right to say “no” to sexual activity and that “no” means “no.” It is the College's position that every human being is entitled to privacy and respect and that rape is a crime of hostility and aggression, as well as a violation of human dignity. A complete copy of the “Kentucky Penal Code” is available through the Director of Counseling Services or via the world wide web.

AFTER A SEXUAL ASSAULT

If a person does become a victim of sexual assault, there are several important steps to follow:

1. Seek medical attention. Do not shower, bathe, change clothing, or douche.
2. Prepare a thorough, detailed report about the incident and responses, actions taken, date and times decisions made for purposes of recalling accurately when a case proceeds.
3. Call a friend, the police, or a rape crisis center for additional support.
4. Secure legal advocacy.
5. Obtain information regarding crime reporting, medical treatment, victim's rights and assistance, and criminal and disciplinary proceedings.

PROCEDURES

Students are encouraged to seek advice, information, or counseling on matters related to ethical violations at the earliest possible stage. The cardinal principles which guide the management of all such violations are: 1) to protect the privacy, confidentiality, and safety of all parties involved, and 2) to assist students in overcoming any obstacles to their progress, and to resume the normal daily patterns of their college experience.

A. Informal Complaint Resolution

A complaint that one or more provisions of this policy have been violated may be brought to the attention of an appropriate member of the college community, such as the Coordinator of Counseling Services or the Dean for Student Development. Students are encouraged to seek advice, information, or counseling on matters related to ethical violations at the earliest possible stage and prior to initiation of a formal grievance procedure.

The person to whom the complaint is brought will advise the complainant as to the options available under this policy and, at the complainant’s request, 1) may help the complainant resolve the complaint informally, and/or 2) help the complainant draft a formal complaint if the complainant decides to do so.

The person to whom the informal complaint is brought will attempt to resolve the complaint at the lowest possible level, and will make every effort to insure the privacy and protection of the complainant.

The aim of informal complaint resolution is to respond to complaints swiftly, to protect the complainant from continuing harassment or exploitation, to limit recrimination, and to mediate with both parties when appropriate. Use of the informal complaint resolution process is voluntary, and no disciplinary action is taken in resolving complaints informally. To provide an historical foundation, a note of the informal resolution is made in a confidential file.

B. Formal Complaint Resolution

In order to file a formal complaint, the complainant(s) may request the assistance of any appropriate member of the college community, such as the Coordinator of Student Conduct, the Dean for Student Development, or the Coordinator of Counseling Services.

- If the individual accused is a student, the report will be filed through the Office of the Dean for Student Development and the published college judicial process for students will apply.
- If the individual accused is an employee of Union College, the report will be filed through the Vice President or Dean with oversight of the employee. For complaints about members of the college's executive leadership team, reports should be provided directly to the president of the college.

Foreword

The CONSTITUTION establishes the vision, authority, range, and ideological foundation for the organization. Minor updating and language refinement within this CONSTITUTION can be done by majority decision of the Senate present at given meeting. The Admincore, Dean for Student Development, and VP’s from each area must then agree on the changes. Changes must be filed with the Dean for Student Development and the President’s Office before they are official. Major conceptual and structural changes to this CONSTITUTION require a two-thirds vote of the full Senate. The Cabinet, Dean for Student Development, and VP’s from each area must then be in agreement on the changes. Major changes to this CONSTITUTION or replacement of this CONSTITUTION with another generally require a referendum of the Student Body.

There are a number of specific references to the VP’s from each area. Although the College Minister is not a member of this body, reference to the VP’s from each area shall be inclusive of the College Minister in all applications involving the collegia and their activities.

The BYLAWS represent the rules governing process of government. Changes to the BYLAWS may be done with a majority vote of the Senate present at given meeting. Consultation is to take place with the Dean for Student Development. Changes must be filed with the Dean for Student Development and the President’s Office in order to become official.

The Barbourville Recreation Park offers a little something for everyone. Enjoy a Sunday picnic with the family, a lazy day of fishing with friends or a relaxing afternoon in the Lazy River...

Sounds great but need something a little more exciting? How about a ride down the Brickyards Waves Waterslide or the thrills & spills of BMX racing at our new BMX Bicycle Track?

CUMBERLAND FALLS STATE PARK
Cumberland Falls State Resort Park is located in the Daniel Boone National Forest. Known as the “Niagara of the South”, the waterfall forms a 125-foot wide curtain that plunges 60 feet into the boulder-strewn gorge below. The mist of Cumberland Falls creates the magic of the moonbow, only visible on a clear night during a full moon. This unique phenomenon appears nowhere else in the Western Hemisphere!

CUMBERLAND GAP NATIONAL HISTORIC PARK
Carved by wind and water, Cumberland Gap forms a major break in the formidable Appalachian Mountain chain. First used by large game animals in their migratory journeys, followed by Native Americans, the Cumberland Gap was the first and best avenue for the settlement of the interior of this nation. In the late 1700s more than 200,000 men, women, and children crossed the Gap into the unknown land of Kentucky.

LEVI JACKSON WILDERNESS ROAD STATE PARK
Levi Jackson Wilderness Road State Park honors both the first judge in Laurel County, and the road that has been termed by some to be the most significant trail in the westward flow of English colonization. The park encompasses over 800 acres and includes the Defeated Camp Pioneer Burial Ground, McHargue’s Mill, and the Mountain Life Museum. The Wilderness Road and Boone’s Trace, both thoroughfares for many a pioneer coming from the East, pass through the park.

PINE MOUNTAIN STATE RESORT PARK
Pine Mountain State Resort Park is a destination for all seasons. The first Kentucky State Park, created in 1924, has its lodge and trails embellished by beautiful rockwork crafted by stonemasons of the Civilian Conservation Corps of the 1930s. Located in the heart of the Kentucky Ridge State Forest in Kentucky’s southeastern mountains, the setting of this modern resort features some of the most beautiful mountain scenery in the state.

2011-2012 Union College Undergraduate Student Handbook

This Handbook is a companion document to the Union College Academic Catalog covering the same time interval. This handbook is provided to inform students on the college’s vision, core values, operating principles, opportunities and expectations. Contents of this handbook are placed here to direct each student in the pursuit of an orderly and informed campus lifestyle; to guide individual choice of action; to promote personal responsibility; to guide orderly resolution of disagreement or conflict; to define student conduct regulations and fair judicial process.

Union and You is published by the Student Development Office of Union College. The specific period of time that the information in this student handbook applies for begins August 2011. In the event of printing delays, the previous issue of the student handbook applies and is available for review via the college’s web site. Special questions, problems, or conflicts that may arise should be brought to the Dean for Student Development. Resolution may be based on precedent and literature/experience of previous year(s).

This issue of Union and You is prepared on the basis of the best information available at the time of publication. All information—including statements, dates, events—is subject to change; the College reserves the right to make and to apply changes and/or addendums contingent on providing adequate reasonable notice to the college community.

Special thanks to those who contributed in production of this issue: Director of Public Relations; various staff members for photographic content.
